

MuniWireless.com - Buyer's Guide Listings

updated: January 16, 2008

Company Name	Category	Website	Street Address 1	Street Address 2	City	State	Zip	Country	Phone	Email Address	Company Description
1020 Inc.	Applications	www.placecast.net	236 Eighth St.	Suite F	San Francisco	CA	94103	USA	415-522-1020	info@placecast.net	1020 provides situational advertising software services, including location data management and exchange for WiFi network operators, service providers and aggregators. Its software targets and delivers location-relevant content to consumers.
3E Technologies International Inc.	Vendors	www.3eti.com	9715 Key West Ave.	Suite 500	Rockville	MD	20850	USA	301-670-6779	webmaster@3eTI.com	3E Technologies International is a provider of secure wireless broadband solutions. The company designs and manufactures WiFi products including mesh networks, access points, bridge and client infrastructure products, as well as security software.
434 Wireless Inc.	Vendors	www.434wireless.com	3195 Barlow CR.		Ontario	Canada	K0A1T0	Canada		info@434wireless.com	434 Wireless is a Canadian company that provides quality assurance software and infrastructure for WiFi mesh operators.
5G Wireless	Vendors	www.5gwireless.com	4136 Del Rey Ave.		Marina del Rey	CA	90292	USA	800-916-1611	sales@5gwireless.com	5G Wireless designs and develops broadband wireless network product solutions to enable municipalities, campuses and public safety agencies. The company also provides WiFi networking equipment for VARs and WISPs.
Accela Inc.	Applications	www.accela.com	2633 Camino Ramon	Suite 120	San Ramon	CA	94583	USA	888-722-2352	info@accela.com	Accela provides, maintains and implements government enterprise management solutions for agencies. Its municipal wireless solution helps municipalities bring broadband wireless services to field staff and citizens. Accela Wireless is a mobile inspection management application and tool for performing damage assessment. The company specializes in mobile government solutions.
Accenture Consultants	Consultants	www.accenture.com						USA	877-889-9009		Accenture is a global management consulting, technology services and outsourcing company. Committed to delivering innovation, Accenture collaborates with clients to help them become high-performance businesses and governments.
Access AnyPlace LLC	Service Providers	www.accessanyplace.com	4906 Cedar Wood Drive		Lilburn	GA	30047	USA		info@accessanyplace.com	Access AnyPlace is a wireless Internet service provider that supports public safety efforts, tourism and economic development. The company specializes in providing WiFi to the public in large-scale venues.
Actaris	Applications	www.actaris.com	2111 N. Molter Road		Liberty Lake	WA	99019	USA	800-635-5461	info@actaris.com	Actaris designs and manufactures meters and systems for the electricity, gas, water and heat markets. The company's products and systems integrate technologies for public or private energy and water suppliers, utility service and industrial organizations.
ADC Telecommunications	Vendors	www.adc.com	13625 Technology Drive		Eden Prairie	MN	55344	USA	800-366-3889	info@adc.com	ADC provides network equipment, software solutions and integration services for broadband, multiservice networks that deliver data, video and voice communications over telephone, cable television, Internet, broadcast, wireless and enterprise networks. In June 2007, ADC partnered with Wlavin to create an open architecture for municipal WiFi networks.
Adesta LLC.	Integrators	www.adestagroup.com	1200 Landmark Center	Suite 1300	Omaha	NE	68102	USA	866-221-5641	info@adestagroup.com	Adesta is a wireless telecommunications system integrator. It has extensive experience with wireless networks—fiber replacement, WiFi, integrating wireless municipal networks, and fixed, mobile mesh networks. The company provides design, construction and maintenance of standalone and integrated communication networks and electronic systems.
ADI Engineering Inc.	Integrators	www.adiengineering.com	1769A Worth Park		Charlottesville	VA	22911	USA	434-978-2888	info@adiengineering.com	ADI Engineering provides outdoor and municipal wireless access products such as wireless router boards, turnkey wireless solutions, reference platforms, and Application-in-a-Flash kits. Its solutions include 802.11x, WiFi, WMAX, and VOIP technologies.
AI Wireless	Integrators	www.ai-wireless.com	11347 Vanowen St.		North Hollywood	CA	91605	USA	818-760-1000	info@ai-wireless.com	AI Wireless provides WiFi, WMAX, cable IP and mesh solutions for ISPs, telecommunications providers, hotspots and public safety applications.
Airmesh Communications Inc.	Service Providers	www.airmesh.com	21300 Victory Blvd	Suite 600	Woodland Hills	CA	91367	USA	866-673-1897	sales@airmesh.net	Airmesh Communications Inc. is a municipal broadband wireless ISP, network operator and a systems integrator. The company utilizes WiFi, WMAX and other wireless technologies to design and deploy high-speed wireless Internet access with voice, data and video over its broadband networks. In addition, Airmesh provides antenna solutions for 802.11 WLAN systems.
Air Broadband Communications Inc	Vendors	www.airbb.com	9909 Huennekens St.	Suite 200	San Diego	CA	92121	USA	858-558-8705		Air Broadband Communications is a company in the wireless networking sector offering wireless IP switches and routers for enterprise and public WiFi and WMAX networks.
Air2Access LLC	Service Providers	www.air2access.com	1516 N. Sandburg Terrace		Chicago	IL	60610	USA	312-842-3936	Info@Air2Access.com	Air2Access is a provider of wireless Internet access to marinas, harbors and yacht clubs throughout the Great Lakes region. The company specializes in wireless enabled marine solutions.
AirDefense Inc.	Vendors	www.airdefense.net	4800 North Point Parkway	Suite 100	Alpharetta	GA	30022	USA	877-220-3301		AirDefense specializes in wireless security, offering WLAN protection products that enable network administrators to build customized reports and troubleshoot wireless connectivity. The company works with government organizations to secure enterprise wireless LANs.
Airpath Wireless	Applications	www.airpath.com	400 West Cummings Park	Suite 2850	Woburn	MA	01801	USA	866-724-7728	info@airpath.com	Airpath provides solutions for cities, network operators and service providers to deploy and manage metropolitan broadband wireless networks. Founded in 2001, the company is a privately held and venture-funded corporation. Airpath's metro solutions allow providers to manage their customer base and multiple venues within a metro scale wireless broadband network.
Airspan Networks Inc.	Vendors	www.airspan.com	777 Yamato Road	Suite 310	Boca Raton	FL	33431	USA	561-893-8670	sales@airspan.com	Airspan provides WMAX broadband wireless access networks for municipal deployment. Airspan offers WiFi products for metrowide WiFi hot zone and backhaul solutions. When used in conjunction with the WMAX product range, combined WMAX and WiFi hot zones can be deployed to support citywide roaming for portable devices.
AirWave Wireless Inc.	Applications	www.airwave.com	1700 South El Camino Real	Suite 500	San Mateo	CA	94402	USA	650-286-6100	info@airwave.com	AirWave offers a network management platform for what it calls the next-generation network—where wireless and wired combine to provide the enterprise with greater flexibility, speed, security and performance. AirWave software is used by hundreds of IT organizations, including Fortune 500 companies, retailers, manufacturers, banks, governments, hospitals, MSPs, schools, hotels, Internet service providers and other institutions.
Alcatel-Lucent	Vendors	www.alcatel-lucent.com	600 Mountain Ave.		Murray Hill	NJ	07974	USA	908-508-8080	reseller.info@alcatel-lucent.com	Alcatel-Lucent deploys, supplies and integrates urban WiFi networks. The company provides solutions that enable service providers, enterprises and governments. Alcatel-Lucent specializes in mobile and converged broadband networking, WMAX technologies and WiFi broadband networks.
AllCity Wireless	Integrators	www.allcity-wireless.com	326 First St., Suite 39B		Annapolis	MD	21403	USA	443-321-3743	sales@allcity-wireless.com	AllCity Wireless is the team that built the Annapolis Wireless network in Annapolis, Maryland. The company has evolved into a vertically integrated wireless network provider that offers turnkey services and solutions for all wireless implementations. The company offers high-speed Internet access, hotspot infrastructure deployment, plus network planning, deployment and support.
Altai Technologies Ltd.	Vendors	www.altaittechnologies.com	Unit 105, 1/F, Block 9, Science Park		Shatin	H.K.		China	852-2116-8087	info@altaittechnologies.com	Altai Technologies focuses on the design, development and marketing of outdoor wireless broadband networks. Its flagship product, A8 WiFi cellular base station, is mainly deployed in outdoor environments to provide citywide WiFi coverage for users to enjoy ubiquitous broadband connections.
Alvarion Inc.	Vendors	www.alvarion.com	2495 Leghorn St.,		Mountain View	CA	94043	USA	650-314-2500	sales-north.america@alvarion.com	Alvarion specializes in municipal wireless deployment, offers WiFi and WMAX networks and solutions to communities across the world, and manufactures mobile WMAX systems. The company is a vendor of wireless broadband network equipment for WISPs, telcos, utilities, carriers and municipal governments. Alvarion provides integrated wireless broadband products and platforms.

AMD	Vendors	www.amd.com	One AMD Place		Sunnyvale	CA	94088	USA	408-749-4000	info@amd.com	AMD is one of the world's largest suppliers of semiconductors. Its products enable millions of devices worldwide to connect to WiFi networks.
American Broadband Communications	Service Providers	www.americanbb.com	401 N. Tryon	10th Floor	Charlotte	NC	28202	USA	704-665-9036	eudy@americanbb.com	American Broadband Communications owns and operates broadband telecommunications and cable networks in rural America.
Anchorfree Inc.	Applications	www.anchorfree.com	260 Santa Ana		Sunnyvale	CA	94085	USA	408-744-1002	info@anchorfree.com	Anchorfree is an advertising and marketing platform that works with network operators and municipalities. Its value proposition is to create digital advertising opportunities at broadband access points and to share the revenue with the network's owner/operator. Its service is at thousands of WiFi locations around the world.
Annapolis Wireless Internet	Service Providers	www.annapoliswireless.com	326 First St.	Suite 39B	Annapolis	MD	21403	USA	443-321-3743	sales@annapoliswireless.com	Annapolis Wireless Internet brings advertising-supported WiFi Internet access to residents and tourists. The company offers free public WiFi hotspots using wireless mesh technologies. It specializes in delivery of WiFi network solutions for data and voice applications.
Aperto Networks	Vendors	contact info: www.apertonet.com	598 Gibraltar Drive		Milpitas	CA	95035	USA	408-719-9977	bwaters@apertonet.com	Aperto Networks helps service providers deliver
Apple Inc.	Vendors	www.apple.com	One Infinite Loop		Cupertino	CA	95014	USA	408-996-1010	sales@apple.com	With WiFi-enabled user devices such as the iPhone and iPod Touch, Apple is building products that create demand for ubiquitous mobile broadband, which helps to fuel the need for munireless networks.
Applied Wireless LAN Inc.	Integrators	www.appliedwlan.com	1627 Yale Place		Rockville	MD	20850	USA	301-424-6857	sales@appliedwlan.com	Applied LAN specializes in turnkey wireless and wired LAN installation with a specialty in wireless hotspots. Its targets include venues interested in deploying hotspots, such as coffee shops, municipalities, hotels, airports, RV/truck stops, marinas, conferences, businesses and college campuses.
Aptilo Networks	Vendors	contact info: www.aptilo.com	Arenavagen 47 Block	27th Floor	Stockholm		S-121 77	Sweden	46-8-5089-8900	info@aptilo.com	Aptilo Networks develops wireless service management platforms for service providers, enterprises and municipalities to manage data and voice services for mobile WiMAX, metro wireless public WiFi and enterprise guest Internet access. Aptilo's wireless service management and delivery platform encompasses subscriber management, billing, access control and network management and monitoring for municipalities.
ARINC	Integrators	www.arinc.com	2551 Riva Road		Annapolis	MD	21401	USA	800-633-6882	sales@arinc.com	ARINC is a solutions provider that builds wireless networks that integrate the field operations systems carried over WiFi, private radio and commercial wireless services for public safety applications. It recently completed the installation of a mobile data network in 900 police cars of the Prince George's County, Md., police department, one of the largest turnkey systems in the U.S.
ArrowSpan Inc.	Vendors	www.arrowspan.com	4800 Great America Parkway	Suite 238	Santa Clara	CA	95054	USA	408-200-8388	info@arrowspan.com	ArrowSpan develops and manufactures WiFi mesh network solutions to deploy in indoor and outdoor settings. Its units are designed to be compatible with access servers, application servers, routers and gateways. The company's solutions enable carriers and service providers to expand wireless networks.
Ask-Wi.Com Inc.	Consultants	www.ask-wi.com	P.O. Box 3339		Chatsworth	CA	91313-3333	USA	818-227-4220	info@ask-wi.com	Ask-Wi specializes in design, installation and support of outdoor broadband wireless networking solutions. It provides wireless ISPs, communities, businesses, and individuals with consultation services such as municipal wireless design and training.
AT&T Inc.	Service Providers	www.att.com	175 E. Houston		San Antonio	TX	78205	USA	210-821-4105	info@att.com	ATT's role in the municipal wireless market is still to be determined. As the nation's largest telecommunications company, it has competitive reasons to oppose munireless networks—which it has—and it has business reasons, potentially, to deploy munireless networks under the right circumstances—which it also has, most visibly in Riverside, Calif.
Atheros Communications Inc.	Vendors	www.atheros.com	5480 Great America Parkway		Santa Clara	CA	95054	USA	408-773-5200	info@atheros.com	Atheros Communications develops wireless LAN chipsets and outdoor wireless systems for municipal networks. The company specializes in the wireless systems market for metropolitan mesh networks.
Atria Networks LP	Service Providers	www.atrianetworks.com	301 Victoria St.		South Kitchener	Ontario	N2G 3W9	Canada	519-593-3000	sales@atrianetworks.com	Atria Networks deploys outdoor wireless mesh networks to cities, businesses and residents. The telecommunications company is owned by local electrical utilities in Canada.
Audible Magic Corp.	Applications	www.audiblemagic.com	985 University Ave	Suite 35	Los Gatos	CA	95032	USA	408-399-6405	info@audiblemagic.com	Audible Magic protects WiFi networks deployed by municipalities with its content filtering platform. The company's solutions block and filter inappropriate and unauthorized Web content from networks such as P2P file trading.
Avion	Consultants	www.avionsystems.com	200 Mansell Court East	Suite 300	Roswell	GA	30076	USA	770-569-0885	info@avionsystems.com	Avion provides value-added network planning, design, installation, optimization and deployment services. It is a 600-person-plus company with roots in the telecom market, working with customers such as AT&T, Sprint Nextel, EarthLink, Ericsson, Alcatel-Lucent, Motorola, Nokia Siemens and Nortel in the design and deployment of state-of-the-art network infrastructures.
Avrio Group	Integrators	www.avriogroup.com	8706 Commerce Drive		Easton	MD	21601	USA	866-283-7378	info@avriogroup.com	Avrio Group provides IP surveillance solutions, wireless mesh networks and IT solutions for federal, state and local governments. The company designs and installs wireless video surveillance systems using mesh technologies.
Ayacht Technology Solutions	Integrators	www.ayacht.com	P.O. Box 955		Bolton	MA	01740	USA	978-779-7970	info.web@ayacht.com	Ayacht Technology Solutions offers services such as wireless design, implementation and support, managed network administration and documentation, and systems monitoring.
Azalea Networks Inc.	Vendors	www.azaleanetworks.com	673 S. Milpitas Blvd.,	Suite 105	Milpitas	CA	95035	USA	408-719-8180	info@azaleanet.com	Azalea Networks is a mesh vendor and provider of broadband wireless mesh networking systems and solutions. Its products and technologies include outdoor and indoor mesh routers. The company is focused on wireless mesh research and development, equipment and wireless communication software.
AztecoSoft	Consultants	www.aztecoSoft.com	3211 Scott Blvd	Suite 204	Santa Clara	CA	95054	USA	408-748-3500	info@aztecoSoft.com	AztecoSoft is a software engineering company that provides development and testing services for companies in the mobile wireless market. AztecoSoft provides full life-cycle product engineering, independent testing, professional services and sustained engineering services.
Azulstar Inc.	Service Providers	www.azulstar.com	1051 Jackson	Suite D	Grand Haven	MI	49417	USA	877-298-5782	info@azulstar.com	Azulstar is a primary outdoor wireless service provider in the municipal broadband wireless market. It owns, operates and deploys munireless networks and also specializes in design, maintenance, billing and operational systems. It built one of the first citywide WiFi networks in Grand Haven, Mich., and it is notably part of the team building Wireless Silicon Valley. Azulstar took over the network in Rio Rancho, N.M., and is currently providing the design and deployment of the network in other regional markets.
B&B Test Solutions Inc.	Applications	www.speedlanwireless.com	620 Atlantis Road		Melbourne	FL	32904	USA	321-725-4398	info@bbtestsolutions.com	B&B Test Solutions develops wireless broadband solutions in public safety communications, video surveillance and municipal networks. Its solutions have been deployed by first responders, telecom carriers, WiSPs, utilities, security companies and the military.
Baller Herbst Law Group	Consultants	www.baller.com	2014 P St. N.W.	Suite 200	Washington	DC	20036	USA	202-833-5300	info@baller.com	The Baller Herbst Law Group is a national law practice representing regional and state municipal electric associations, state municipal leagues, and local governments involving telecommunications, cable and Internet and communications services.
Bearcom Wireless	Integrators	www.bearcom.com	P.O. Box 559001		Dallas	TX	75355	USA	800-252-1691	sales@bearcom.com	Bearcom Wireless provides wireless communications products, equipment, accessories, services and solutions.
BelAir Networks Inc.	Vendors	www.belairnetworks.com	603 March Road		Kanata	Ontario	K2K 2M5	Canada	877-235-2471	info@belairnetworks.com	BelAir Networks is one of the leading providers of mobile broadband mesh networking solutions. BelAir has been an innovator in building munireless networks, creating the first multi-service mesh combining WiFi, WiMAX and cellular. Its networks are used for public safety, public access and public works applications, providing carrier-class capacity and reliability. Its equipment is used in the munireless networks in cities such as Minneapolis, Toronto, the City of London, Riverside, Calif. and Boise, Idaho.

Belden Inc.	Vendors	www.belden.com	2200 U.S. Highway 27 South		Richmond	IN	47374	USA	800-235-3361	tech@belden.com	Belden is one of the largest manufacturers of high-speed cables and focuses on products for the specialty electronics and data networking markets, including connectivity.
BIG Wireless	Consultants	www.bigwireless.net	156 N. George St.		York	PA	17401	USA	717-854-9983	bshannon@bigwireless.net	BIG Information Group is a wireless integration, security and IT consulting firm. Its Wireless Communications Team designs, builds and manages large, high-speed wireless, data and VoIP broadband networks.
Blue Moon Solutions	Integrators	www.bmsol.com	12117 Bee Caves Road	Suite 180	Austin	TX	78735	USA	512-651-1950	sales@bmsol.com	Blue Moon partners with cities to build and operate muni WiFi networks for public safety, emergency response and education while offering Internet, telephone and television services to customers as a means of diversification and economic development. Some of its deployments include Zapata County, Progresso and Falcon Lakes, Texas
Blue Vector Systems	Vendors	www.bluevectorsystems.com	1808 B Embarcadero Road		Palo Alto	CA	94303	USA		650-320-8900	Blue Vector Systems provides deployable asset tracking and supply chain visibility solutions for RFID, bar code, temperature, GPS and motion sensors. The company's products allow for creating and managing large networks of wireless sensors.
Boingo Wireless Inc.	Service Providers	www.boingo.com	10960 Wilshire Blvd	Suite 800	Los Angeles	CA	90024	USA	800-880-4117	info@boingo.com	Boingo is a private company that provides wireless communications services, specifically WiFi, and software technology and naming services to help bring wireless Internet access. The company has assembled a roaming system for hotspot locations worldwide. Boingo also provides software for discovering and connecting to wireless hotspots.
BridgeWave Communications	Vendors	www.bridgewave.com	3350 Thomas Road		Santa Clara	CA	95054	USA	866-577-6908	info@bridgewave.com	BridgeWave Communications designs, manufactures and supplies gigabit wireless solutions and wireless communications infrastructure products. Its solutions and applications are for the enterprise, service provider, healthcare, education, public safety and government/military network applications.
Broadband Technology Associates	Consultants	www.btausa.net	3326 Moraine Drive		Aurora	IL	60506	USA	630-748-1234		BTA is a management consulting firm specializing in assisting municipalities and other governmental districts with developing their strategic plan for the implementation and operation of municipal broadband networks.
Brovix Wireless Networks	Vendors	www.brovix.com	19925 Steven's Creek Blvd.		Cupertino	CA	95014	USA		408-725-7195	Brovix Wireless networks provides WiMAX and WiFi systems for campus deployments, muni WiFi networks and large WISP deployments. It claims its products increase the range, speed, reliability, security and management of wireless networks in challenging non-line-of-sight terrain and harsh industrial settings.
Burns & McDonnell	Consultants	www.burnsmcd.com	9400 Ward Parkway		New York	MO	64114	USA	816-333-9400	jbrosks@burnsmcd.com	Burns & McDonnell is a full-service engineering, architecture, construction, environmental and consulting solutions firm. It provides construction, facilities design and IT services, among others, for municipalities.
Camvera Networks Inc.	Integrators	www.camvera.com	2844 E. Michelle Way	Suite 1101	Gilbert	AZ	85234	USA	480-218-4441	info@camvera.com	Camvera is a broadband integrator and provider of fixed wireless solutions that assist municipalities and other operators to build community networks utilizing wireless technologies. The company researches, develops and deploys wireless broadband applications and networking systems for rural communities working with its clients, cities and the opportunities offered by the government.
Carlson Wireless Technologies Inc.	Vendors	www.carlsonwireless.com	1385 eighth St.		Arcata	CA	95521	USA	707-822-7000	sales@carlsonwireless.com	Carlson Wireless Technologies designs and builds wireless telecommunications systems for rural areas and businesses. In addition, it manufactures wireless access solutions. CWT delivers voice and/or data services to homes, businesses and industrial sites in rural and remote areas.
Catfish Networks LLC	Applications	www.catfishgps.com	259 Walnut St.		Newton	MA	02460	USA	617-671-1202	www.catfishgps.com	Catfish Networks provides a GPS tracking system. Applications include fleet management.
Cellnet Technologies Inc.	Integrators	www.cellnet.com	30000 Mill Creek Ave.	Suite 100	Alpharetta	GA	30022	USA	678-258-1500	customersupport@cellnet.co	Cellnet is a supplier of network-based solutions to the utility industry. It is the main contractor for the muniwireless network in Madison, Wis.
CenturyTel Inc.	Service Providers	www.centurytel.com	100 CenturyTel Drive		Monroe	LA	71203	USA	800-201-4099	jeff.nevins@centurytel.com	CenturyTel is a telecommunications exchange carrier that provides communications, Internet and entertainment services in small to mid-size cities through broadband and fiber transport networks.
CH2M Hill	Consultants	www.ch2m.com	75 Broad St.	Floor 29	New York	NY	10004	USA	888-242-6445	feedback@ch2m.com	CH2M HILL is a provider of engineering, construction, consulting and operations services for corporations, nonprofits and federal, state and local governments.
Cheetah Wireless Technologies Inc.	Integrators	www.cwti.us	1421 E. Sunset Road	Suite 11	Las Vegas	NV	89119	USA	702-243-3824	sales@cwti.net	Cheetah Wireless Technologies specializes in wireless mesh network solutions that investigate the inherent benefits of the microcell design. The company offers solutions from a number of manufacturers and has integrated them into a single wireless canopy. Cheetah is working with BellAir Networks to build a broadband mesh network delivering high-speed access along the Las Vegas Strip. It also has muniwireless deployments in Clark County, Nev., Encinitas, Calif. and Nevada City, Nevada.
Chevron Energy Solutions	Integrators	www.chevronenergy.com	345 California St.	18th Floor	San Francisco	CA	94104	USA	800-982-6887	cesfeedb@chevron.com	Chevron Energy Solutions, a division of the oil company, is the main contractor for the buildout of the muniwireless network in Burleson, Texas, which is being used for automated meter reading and other applications.
CHR Solutions Inc.	Consultants	www.chrsolutions.com	9700 Bissonnet	Suite 2800	Houston	TX	77036	USA	713-995-4778	info@CHRSolutions.com	CHR Solutions provides a full spectrum of telecommunications, business consulting and IT services. In wireless, it provides point-to-point and point-to-multipoint assistance for licensed and unlicensed plays. This includes path analysis, construction monitoring and frequency coordination.
Cielo Systems	Integrators	www.cielosystems.net	1001 Main St.	Suite 204	Lubbock	TX	79401	USA	806-771-6940		Cielo Systems is a Texas-based broadband wireless systems integrator that offers turnkey WiFi and WiMax services to private wireless Internet service providers, governmental entities, and organizations worldwide.
Cisco Systems Inc.	Vendors	www.cisco.com	170 W. Tasman Drive		San Jose	CA	95134	USA		800-553-6387	Cisco Systems is the worldwide leader in networking for the wireless. Cisco is taking the aggressive position to the muniwireless market, and is involved in projects on Long Island, Wireless Silicon Valley, Singapore, Dublin, Ohio, and many more. The Cisco Outdoor Wireless Solutions use wireless mesh technology, wireless bridging and mobile networks to allow government, public safety and transportation organizations to build cost-effective outdoor wireless networks for public use. These technologies are designed to provide secure, high bandwidth, and reliable service.
Citi WiFi Networks	Service Providers	www.citiwifi.com	42 First St. South,		St. Petersburg	FL	33701	USA	727-822-1630	sales@citiwifi.com	Citi WiFi Networks designs, builds and operates network infrastructure to enable cities using WiFi and WiMAX mesh networks.
Citizens Communications	Service Providers	www.czn.net	3 High Ridge Park,		Stamford	CT	06905	USA	203-614-5600	Citizens@czn.com	Citizens Communications is the parent company of Frontier Telephone, providing telecommunications and Internet access in 24 states.
Civitiium LLC	Consultants	www.civitiium.com	12850 Highway 9	Suite 600 PMB-306	Alpharetta	GA	30004	USA	678-595-3085	info@civitiium.com	Civitiium is a management and technology consulting firm for municipal governments and institutions for municipal broadband projects. Civitiium provides consulting services ranging from business strategy, public policy development, technology and communications planning to municipal governments, nonprofit groups and private telecommunications providers. The company helps communities conduct feasibility studies, navigate regulations and choose business models.
Clearwire	Service Providers	www.clearwire.com	3525 E. Post Road	Suite 110	Las Vegas	NV	89120	USA	888-253-2794		Clearwire is the wireless Internet service provider founded by cellular phone pioneer Craig McCaw. It is building out a nationwide and international wireless network based on WiMAX technology, and recently signed a partnership with Sprint to join forces on the network buildout. While it will be a competitor to municipal wireless networks in cities such as Portland, Ore., Clearwire has also shown a willingness to partner with municipalities, as evidenced by its selection as the network operator for Grand Rapids, Mich.
Cohda Wireless	Vendors	www.cohdawireless.com	12565 Research Parkway	Suite 300, Rm 162	Orlando	FL	32826	USA	407-574-2115	inquiry@cohdawireless.com	Cohda Wireless is developing standards-compliant products and technologies that enable muniwireless and public safety system vendors to improve the economics of citywide outdoor networks, while at the same time increasing the mobility, robustness and range of their systems.

Colubris Networks	Vendors	www.colubris.com	200 West St.	Suite 300	Waltham	MA	02451	USA	781-684-0001	Colubris Networks provides WiFi wireless LAN networking devices and delivers WLAN gear and solutions for wired and wireless carriers, enterprises and institutions in the hospitality, manufacturing, transportation and healthcare industries. The company provides wireless hardware and software for municipal WiFi services. In the multiwireless market, Colubris is involved in a project to provide high-speed Internet access to a commuter railway in Dallas.	
Comcast	Service Providers	www.comcast.com	1500 Market St.		Philadelphia	PA	19102	USA	215-665-1700	info@comcast.com	One of the nation's largest cable companies, Comcast, like many incumbents, has been an opponent of municipal wireless efforts in the past and now is making slight, tentative moves to participate, albeit very lightly. The company has submitted a bid to take over an existing small network in New Wilmington, Pa.
Connect802 Corp.	Consultants	www.connect802.com	111 Deerwood Road	Suite 200	San Ramon	CA	94583	USA	925-552-0803		Connect802 is a privately held wireless network design, equipment sales, support services and consulting firm providing in-building and metro area wireless solutions.
Conterra Ultra Broadband	Service Providers	www.conterra.com	2101 Rexford Road	Suite 200E	Charlotte	NC	28211	USA	877-365-6701	Sales@Conterra.com	Conterra Ultra Broadband provides microwave- and fiber-based, high-speed broadband connections and wide area networks to education, healthcare, business, government and carrier customers primarily in under-served communities.
Conxx Inc.	Integrators	www.conxx.net	434 N. Centre St.		Cumberland	MD	21502	USA	888-88-CONXX	info@conxx.net	Conxx designed, built and operates Maryland's Allegany County network. The company has developed a network architecture and infrastructure to help rural communications overcome both digital and economic divides. In addition to operating multiwireless networks, Conxx offers a full-service, Web-based network management and operating support system for municipal networks. It also has a carrier platform combining carrier-grade telecommunications technology at a low cost.
Coplogic Inc.	Applications	www.coplogic.com	231 Market Place	Suite 520	San Ramon	CA	94583	USA	800-734-9293	info@coplogic.com	Coplogic offers a Web-based reporting system for public safety agencies. Its clients include Fort Collins, Colo., Santa Clara, Calif., and Auburn, Wash.
Cumulus Consulting Group	Consultants	www.cumulusgroup.com	PO Box 2322		Warminster	PA	18974	USA	215-774-9883	info@cumulusgroup.com	Cumulus Consulting Group implements, designs and supports wireless network infrastructures, provides planning and consulting for security, performance, management capabilities and wireless integration devices. The company configures and installs network infrastructure.
CUWIN	Consultants	www.cuwireless.net	202 S. Broadway Ave.	Suite 1	Urbana	IL	61801	USA	217-278-3933	cuwin-support@cuwin.net	Champaign Urbana Community Wireless Network is a coalition of wireless developers and volunteers to provide alternatives for contemporary broadband models. CUWIN develops software for mesh wireless networking and provides wireless consulting.
DHB Networks	Integrators	www.dhbnetworks.com	43388 Bright Road		Dublin	OH	43016	USA	614-792-7887		DHB Networks is a provider of multiwireless network in Dublin, Ohio, which has been operational since 2004 and provides applications such as public safety, GIS asset inventory, city and event services and building inspection/permitting. DHB integrates information security management systems, outside fiber plant construction, public safety solutions, IP telephony, grant writing, Web development, asset tracking, video surveillance and many other next generation solutions.
Digital Microwave Consulting	Consultants	www.digitalmicrowaveconsultants.com	505 Fairhill Road		Hatfield	PA	19440	USA	215-721-9292	info@digitalmicrowaveconsultants.com	Digital Microwave Consulting offers a variety of services for the deployment of municipal WiFi and citywide hotspot networks. It can provide expert services in the selection of data platforms, instrumentation and RF transport systems. It can also provide assistance and supervision of the system integration, including licensing, installation, characterization and the attachment of revenue generating subscribers.
Digital Payment Technologies	Applications	www.digitalpaytech.com	4105 Grandview Highway		Burnaby, BC	Canada	V5C 6B4	Canada	888-687-6822	info@digitalpaytech.com	Digital Payment Technologies designs and manufactures digital parking meters, including wireless solutions. The company's products provide complete financial tracking, control and reporting on parking revenue collected by cities, municipalities, universities, parking management companies, private operators and national parks, from customer payment through to bank deposit.
DigitalPath Inc.	Service Providers	www.digitalpath.net	275 Airpark Blvd	Suite 500	Chico	CA	91708	USA	800-676-7284	info@digitalpath.net	DigitalPath is both a wireless ISP, providing broadband phone and Internet service to more than 25 communities in Northern Calif., and is also a provider of wireless products for rural and municipal deployments.
DoceoTech Inc.	Consultants	www.doceotech.com	9000 Crow Canyon Road	Suite S-173	Danville	CA	94502	USA	831-236-7207	sales@doceotech.com	DoceoTech is a technology training company that specializes in WiFi, WiMAX and other broadband wireless networks. It offers certification training, skills courses for engineers and custom courses for vendors or municipalities. Courses are available in person or online.
Doubleradius	Consultants	www.doubleradius.com	2022 Van Buren Ave.		Indian Trail	NC	28079	USA	866-891-3602	sales@doubleradius.com	Doubleradius is a distributor and integrator of wireless equipment and services that also provides bundled finance programs and technical training. The company helps a wide range of customers including WiSPs, municipalities, service providers, telecommunications companies and utility companies. Its solutions include WAN and LAN connectivity requirements for wireless, dial-up, DSL, routing and switching.
EarthLink Inc.	Service Providers	www.emnwifi.net	1375 Peachtree St. N.W.	Level A	Atlanta	GA	30309	USA	866-226-0572	municipalinfo@corp.earthlink.net	EarthLink is the nation's largest multiwireless network in the region surrounding the multiwireless market—having the most services in Philadelphia, San Francisco, Houston, Chicago and other cities—and now it is the poster child for much of the negative press surrounding the market, after pulling back on many of its plans, announcing major layoffs and backing off on its previous strategy. It recently purchased the network in Corpus Christi and is still active in Philadelphia, Anaheim and several other locations. It is also the only provider of wireless services in the market.
EDS	Integrators	www.eds.com	5400 Legacy Drive		Plano	TX	75024	USA	972-604-6000	info@eds.com	EDS's Global Communications Industry Group helps wireline, wireless, broadband and cable service providers redefine their markets to help them become more agile, reduce fixed operations cost and introduce next-generation services.
EDX Wireless Llc	Vendors	www.edx.com	101 E. Broadway	Mail Stop 305	Eugene	OR	97401	USA	541-345-0019	info@edx.com	EDX provides wireless network planning, design and management software tools for outdoor and indoor settings. The company designs and develops software for planning municipal wireless networks. The network design tools can be used for wireless communications networks, include wireless broadband, WiMAX, WiFi, public safety and other mobile wireless systems.
Embarq Corp.	Service Providers	www.embarq.com	5454 West 110th St.		Overland Park	KS	66211	USA	866-404-4637		Embarq, a spinout of Sprint, is a telecommunications service provider operating in 18 states offering local and long distance voice, data, high speed Internet, wireless and entertainment services. It is taking a tentative approach to multiwireless, operating trials in Henderson, Nev., and another in Hood River, Ore. Both are offering free service to residents during the trials.
E-Path Communications Inc.	Service Providers	www.e-pathcommunications.com	5110 Eisenhower Blvd	Suite 300	Tampa	FL	33634	USA		bobby.ceklic@epathcomm.com	E-Path is the small company in Tampa, Fla., that was recently awarded the huge contract to deploy a multiwireless network across Nassau and Suffolk Counties on Long Island. Its partners on Long Island are Cisco and Keyspan, the local utility. E-Path is looking for funding to support the network rollout. It also operates a 16-square mile test network in Delray Beach, Fla.
Approach Communications	Service Providers	www.approach.net	720 N. Third St.	Suite 400	Wilmington	NC	28401	USA	877-364-5907	info@approach.net	Approach Communications works with cities and towns to provide broadband wireless networks for public safety, local governments, offices, public spaces, utilities and communities. Approach provides free WiFi service through sponsored metro hotspots for the community. The company builds, maintains and operates wireless broadband networks in partnerships with local governments that provide Internet and network services.
ERF Wireless Inc.	Integrators	www.erfwireless.com	2911 S. Shores Blvd.	Suite 100	League City	TX	77573	USA	281-538-2101	info2911@erfwireless.com	ERF Wireless provides a variety of Internet, voice, data, network monitoring and video services across the country, both under the ERF Wireless brand as well as under the localized brand of ISPs it has acquired. The company's Bundled Wireless Services unit operates primarily in non-urban markets.
Excelsio Communications	Consultants	www.excelsiocomm.com	13010 Morris Road	Bldg 1, 6th Floor	Alpharetta	GA	30004	USA	678-884-9625	kedwards@excelsiocomm.com	Excelsio Communications is a wireless broadband consulting firm that provides business planning, advice, network design and deployment process for municipalities, counties and service providers. The company specializes in issues related to municipal broadband networks.
EXS Inc.	Vendors	www.exsnetworks.com	1900 Alameda de las Pulgas	Suite 110	San Mateo	CA	94403	USA	650-574-1257	info@exszone.com	EXS has developed a wireless mesh network that is optimized for deployment in Asia and Latin America. The company has created the "XS Zone," which provides voice and broadband solutions for neighborhoods and communities at an attractive price.
Fiber Tower	Service Providers	www.firstavenet.com	185 Berry St.	Suite 4800	San Francisco	CA	94107	USA	415-6599-3500	info@fibertower.com	Fiber Tower is a fixed access service provider in wireless backhaul services and network communications for mobile operators, fixed-line service providers and government agencies. The company also deploys commercial Ethernet services. Its hybrid network architecture consists of microwave and fiber technologies.
Firetide Inc.	Vendors	www.firetide.com	16795 Lark Ave.	Suite 200	Los Gatos	CA	95032	USA	408-399-7771	info@firetide.com	Firetide provides secure, high performance, standards-based wireless mesh infrastructure and access solutions. The company's product portfolio is ideal for municipal and public safety networks. It securely handles concurrent video, voice and data applications to support video surveillance, Internet access, and temporary networks, wherever rapid deployment, mobility, and ease-of-installation are required. Among other locations, Firetide equipment is used in the Dallas Police Department and the Dallas Police Department.

First Mile Wireless	Integrators	www.firstmilewireless.com	11044 Zumbrot Court		Blain	MN	55449	USA	763-792-2093	sales@firstmilewireless.com	First Mile Wireless specializes in building-to-building and metro-area wireless solutions. They were the integrator for the munireless network in Chaska, Minn.
Fixed Wireless One	Integrators	www.fixedwirelessone.com						USA	866-895-6888	info@fixedwirelessone.com	Fixed Wireless ONE provides wireless broadband engineering, design, deployment, and maintenance services for cities and towns, the public safety market, school districts, corporations, business parks, and residential communities. The company utilizes 802.11, 802.16, WiFi, WiMAX technologies.
Fluidmesh Networks Inc.	Applications	www.fluidmesh.com	165 Tremont St.	Suite 1502	Boston	MA	02111	USA	617-850-9007	support@fluidmesh.com	Fluidmesh develops wireless systems for security and mission-critical applications based on mesh networking technology. The company is focused on the development of top-quality wireless products for security, video surveillance, condition monitoring and data communication in large areas at risk. Fluidmesh Networks' target markets are municipalities, industrial plants, seaports and marinas, archaeological sites, resorts, theme parks and racetracks.
FON	Applications	www.fon.com	201 Post St.	Suite 1100	San Francisco	CA	94108	USA		support@fon.com	FON distributes WiFi routers to telcos, ISPs and hotspots around the world to create a virtual WiFi community. It has raised more than \$35 million from investors such as Google, Skype and Index Ventures and it recently signed a partnership with British Telecom (BT) that could potentially cover the United Kingdom with FON hotspots.
Foundry Networks Inc.	Vendors	www.foundrynet.com	4980 Great America Parkway		Santa Clara	CA	95054	USA	888-887-2652	info@foundrynet.com	Foundry Networks is a network system vendor that sells high-end managed Ethernet switches and routers. Foundry Networks produces enterprise and service provider application switches and routers, as well as security and traffic management solutions.
Free Press	Consultants	www.freepress.net	100 Main St.	PO Box 28	Northampton	MA	01061	USA	413-585-1533	info@freepress.net	Free Press is a nonprofit group that favors the development of municipal wireless. The organization works to increase public awareness and participation on media policy debates.
Front Porch Inc.	Applications	www.frontporch.com	14520 Mono Way	Suite 200	Sonora	CA	95370	USA	209-288-5500		Front Porch inc. is a leader in advertising and customer messaging solutions for Internet providers. Its solutions are deployed in wireless, cable, telco and other Internet service provider networks, including free-hotspot.com, and 4Wire's Mobile Broadband Advertising Network. Installation venues also include wireless hot zones, conferences, airports, coffee shops, shopping malls, train stations, resorts, universities, commuter hubs, sports centers and tourist attractions.
Fujitsu Network Communications Inc.	Vendors	www.fujitsu.com	2801 Telecom Parkway		Richardson	TX	75082	USA		800-777-3278	Fujitsu is one of the world's largest suppliers of tele-communications equipment. Fujitsu Microelectronics is a founding and board member of the WiMAX Forum and provides WiMAX SoC and reference designs for WiMAX-certifiable systems to vendors. In Billings, Mont., a cable operator is utilizing a solution from Fujitsu Network Communications to enable WiFi over a cable network.
Galaxy Internet Services Inc.	Integrators	www.gis.net	188 Needham St.	Suite 110R	Newton	MA	02464	USA	888-334-2529	sales@gis.net	Galaxy Internet Services owns and operates residential and broadband municipal wireless mesh solutions and networks for consumer WiFi, municipal and public safety applications. The company enables wireless broadband access coupled with partnerships with government municipalities and the private-sector. Galaxy's services include Internet connectivity, hosting, wide-area networking and professional services.
Gibson Tech	Consultants	www.gibsontech.com	230 Mountain Brook Court		Canton	GA	30115	USA	888-849-9287	info@gibsontech.com	GTS provides technology services and equipment in the areas of broadband engineering, construction and certification, wireless LANs/WANs and telecom network infrastructure design. The company's citywide mesh networking deployments include residential and small business broadband Internet access, video surveillance, data access and VoIP.
Gigabeam Corp.	Vendors	www.gigabeam.com	4021 Stirrup Creek Drive	Suite 400	Durham	NC	27703	USA		919-206-4426	Gigabeam provides multigigabit wireless communications for the last mile between the fiber optic backbone and commercial users. It describes its solutions as a true substitute for fiber in the last mile.
Go Networks Inc.	Vendors	www.gonetworks.com	1943 Landings Drive		Mountain View	CA	94043	USA	650-962-2000	gonetworks.com	Go Networks is a wholly owned subsidiary of NextWave Wireless Inc. It provides mobile broadband wireless network solutions based on WiFi and WiMAX standards. Its solutions provide worldwide commercial and municipal wireless broadband service providers with the network performance and economics they need to profitably deliver wireless broadband services to customers.
Google Inc.	Vendors	www.google.com	1600 Amphitheatre Parkway		Mountain View	CA	94043	USA	650-253-0000	wireless-sales@google.com	In addition to its primary search-oriented business, Google is funding and testing no-cost municipalwide WiFi Internet access to Californian city residents. It is deploying test networks, services, products and transmitters.
GPS Industries Inc.	Applications	www.gpsindustries.com	5500 St.	Suite 214-5500	Surrey, BC	Canada	V3S 5J9	USA	888-667-3477	info@gpsindustries.com	GPS Industries engineers and markets GPS and WiFi-enabled communications applications. The company also develops and markets GPS and WiFi wireless multimedia solutions for golf facilities, resorts and residential communities.
Green-WiFi	Consultants	www.green-wifi.org						USA		bruce@green-wifi.org	Green-WiFi is a nonprofit organization that designs solar-powered networking gear that aims to bring Internet broadband access to developing countries, schools and areas with unreliable electricity.
Hansen Information Technologies	Applications	www.hansen.com	13560 Morris Road	Suite 4100	Alpharetta	GA	30004	USA	866-244-5479	webinfo@hansen.com	Hansen Information Technologies provides applications software that helps manage the operations of government. Hansen's products aggregate citizen and business requests for services and business transactions across the enterprise, offering multiple channels (i.e., Web portal, kiosk, front counter, telephone and e-mail) of secured access to back-office functions.
Hewlett-Packard	Integrators	www.hp.com	3000 Hanover St.		Palo Alto	CA	94304	USA	650-857-1501	support@hpcp.biz	Hewlett-Packard is the systems integrator and operator of the municipal wireless network in St. Cloud, Fla. It also built a network in Franklin, Tenn., for the city's first response unit, including police and fire departments. The company provides guidance and assistance to city leaders and IT departments from the planning stages through deployment of the infrastructure technology. It organizes workshops, does feasibility studies and installs and manages the network.
Hexagram Inc.	Applications	www.hexagram.com	23905 Mercantile Road		Cleveland	OH	44122	USA	800-969-1057	star@hexagram.com	Hexagram is a provider of automated meter reading equipment. Its products are used in the municipal wireless deployment in Corpus Christi, Tex.
Hopling Technologies B.V.	Vendors	www.hopling.com	Camerstraat 8-10, 1322 BC Almere					The Netherlands		info@hopling.com	Hopling Technologies provides wireless mesh networking equipment and solutions for enterprises, operators and service providers. Its solutions are based on a converged wireless IP-based infrastructure. They design, develop, make and provide hotspots and citywide networks.
Hutton Communications	Integrators	www.huttononline.com	P.O. Box 201439		Dallas	TX	75320	USA	877-748-8866	sales@huttoncom.com	Hutton Communications, Inc. is a distributor of commercial wireless communications and related equipment. It serves cellular and radio communications dealers, wireless communications carriers and self-maintained end users of communications systems. It provides customers with power systems solutions for emergency backup, alternative energy sources, or out-of-grid power requirements.
IBM	Integrators	www.ibm.com	One New Orchard Road		Armonk	NY	10504	USA	877-426-6006	sales@ibm.com	IBM Global Services works with technology partners such as Cisco and service providers such as Azular to provide and build turnkey municipal wireless solutions. IBM deployments include Wireless Silicon Valley, Clark County, Nev., Winston-Salem, N.C. and Browsville, Tex. IBM's services include network security, planning, design, implementation testing, training, post-implementation support and project management.
ICOA Inc.	Service Providers	www.icoacorp.com	111 Airport Road		Warwick	RI	02889	USA	401-352-2300	sales@icoacorp.com	ICOA is a WiFi and broadband wireless Internet network provider that provides for public locations such as airports, marinas, restaurants, operators and wireless service providers. The company provides managed services such as support, deployment, management, design, installation, operation and maintenance. It provides WLAN systems and solutions for operational applications and services.
Identiprise Corp.	Applications	www.identiprise.com	11490 Commerce Park Drive	Suite 240	Reston	VA	20191	USA	866-419-3900		Identiprise provides mobile security solutions and managed security services for municipalities and public safety organizations. Its products include SecureMobile, an integrated solution for end-to-end encryption of mobile data communications across any IP network, and SecureUser, a digital identity life-cycle management solution.
In Motion Technology	Applications	www.inmotiotechnology.com	625 Agnes St.	Suite 350	New Westminster, BC	Canada	V3M 5Y4	Canada	866-468-2968	sales@inmotiotechnology.com	In Motion Technology's Vehicle Area Network (VAN) solution provides a seamless communications platform to ensure "always on" communications for public safety professionals. In Motion Technology's VANs are being deployed in emergency medical services organizations, police and fire departments, transit authorities and municipalities.
InfNet Wireless Ltd.	Vendors	www.infnetwireless.com	21/14a 5th Donskoi Proezd		Moscow		119334	Russia	7-495-784-73-12	sales@infnetwireless.com	InfNet Wireless provides ISP and telco carriers with wireless solutions for last mile broadband access to millions of prospective users in Russia, China and India. InfNet Wireless is a leading provider of pre-WiMAX multiservice broadband wireless access systems for hundreds of global markets.

Inovaware Corp.	Applications	www.inovaware.com	1833 Kalakaua Ave.	Suite 608	Honolulu	HI	96815	USA	415-378-1370	sales@inovaware.com	Inovaware is an Internet billing company that specializes in WIMAX billing and the broadband wireless access markets.
Inspira Ltd.	Vendors	www.inspirair.com	11 Moshe Levi St.,		Rishon LeZion	Osreal	75658	USA	972-9971-4500	info@inspirair.com	Inspira develops markets and sells a WiFi-based technology for wide area and municipal WiFi networks. Inspira's technology extends the typical WiFi range and enables quad-play services, including video, voice and data and mobility. Mobile users can use Inspira's broadband IP because it supports seamless handoff between base stations.
Intec Telecom Systems	Applications	www.intecbilling.com	301 Perimeter Center N.	Suite 200	Atlanta	GA	30346	USA	404-705-2800	usinfo@intecbilling.com	Intec Billing is a provider of business and operations support systems and services for telecom and wireless providers.
Intel Corp.	Vendors	www.intel.com	2200 Mission College Blvd		Santa Clara	CA	95054			408-765-8080	Intel was one of the pioneers in helping to create and build the m-commerce market. It stepped in early in Corpus Christi, Texas, to help to experiment with new applications, with the ultimate goal being to generate demand for devices powered by Intel chips. Intel Solution Services, Intel's worldwide professional services organization, and the Intel Digital Communities Initiative bring together technology leaders and progressive cities worldwide to plan and deploy advanced mobile services for communities. Intel Communities provides local digital infrastructure that makes it possible for business-critical public service data collection systems. This enables public agencies to gain greater visibility to their own operations, assets and service delivery. It provides ruggedized products for first response teams, and it has tracking and deployment solutions that allow public safety networking to access critical information.
Intermec Technologies Corp.	Applications	www.intermec.com	6001 36th Ave. West		Everett	WA	98203	USA	800-755-5505	info@intermec.com	Intermec and its partners provide systems definition and design as well as deployment and ongoing support for business-critical public service data collection systems. This enables public agencies to gain greater visibility to their own operations, assets and service delivery. It provides ruggedized products for first response teams, and it has tracking and deployment solutions that allow public safety networking to access critical information.
Inveneo	Integrators	www.inveneo.org	760 Market St.	Suite 859	San Francisco	CA	94102	USA	415-901-1969	info@inveneo.org	Inveneo is a non-profit organization that connects rural and remote villages in the developing world with WiFi and LAN wireless gear, products and solutions.
Invision Networks	Integrators	www.invisionnetworks.com	235 W. 83rd St.	Suite D	Burr Ridge	IL	60527	USA	630-242-6363	support@invisionnetworks.com	Invision Networks provides wireless network integration to businesses, first responders, communities and organizations. The company also develops and implements community-oriented applications, wireless network infrastructure and mobile systems.
IP Fabrics Inc.	Applications	www.ipfabrics.com	14964 NW Greenbrier Parkway		Beaverton	OR	97006	USA	503-444-2400	info@ipfabrics.com	IP Fabrics' DeepSweep network surveillance system is a networking solution optimized for real-time, wire-speed, "live" network surveillance. The system provides a powerful and configurable manner in which to inspect and act on network traffic of interest. Network surveillance applications include cyber crime investigations, network abuse detection, lawful interception and national security/intelligence.
IPass Inc.	Applications	www.ipass.com	3800 Bridge Parkway		Redwood Shores	CA	94065	USA	650-232-4100		IPass provides secure access solutions for hotspots and municipalities worldwide, creating a global virtual network that unifies hundreds of wireless, broadband and dial-up providers in more than 160 countries. IPass software and services offer device management, security validation and unified billing.
IR Data Corp.	Vendors	www.irdatacorp.com	2973 Harbor Blvd	Suite 630	Costa Mesa	CA	92626	USA	714-434-9964	Sales@irdatacorp.com	IR Data is a manufacturer of mesh access points, routers and radios. The SWAP900 is a solar-powered 2.4GHz 802.11b/g access point and 900MHz mesh router that provides secure local access for WiFi enabled computers. Data is relayed between access points utilizing the mesh network with a 900MHz broadband radio and omnidirectional antenna.
Itron	Applications	www.itron.com	2111 N. Molter Road		Liberty Lake	WA	99019	USA	800-635-5461		Itron is a leading supplier of meters for automated meter reading and advanced metering infrastructure technology.
JiWire Inc.	Applications	www.jiwire.com	220 Sansome St.,	4th Floor	San Francisco	CA	94104	USA	415-877-4711		JiWire is a mobile broadband advertising network delivering advertising on WiFi and WIMAX networks. JiWire enables the mobile broadband ecosystem (wireless ISPs and device manufacturers) to monetize public mobile broadband access by delivering location-aware advertising as a form of connection currency.
Johnson Controls Inc.	Integrators	www.johnsoncontrols.com	5757 N. Green Bay Ave.		Milwaukee	WI	53209	USA	414-524-1200	info@johnsoncontrols.com	Johnson Controls is a large manufacturer and integrator in markets such as automotive, building efficiency and power solutions. In partnership with Connx, another systems integrator, it is building the municipal WiFi network in Cumberland, Md. The city expects to have the network fully deployed in mid-2008 and will include applications such as meter reading, wholesale access and residential access.
Joink	Service Providers	www.joink.com	1362 Wabash Ave		Terre Haute	IN	47807	USA	888-315-6465	sales@joink.com	Joink provides and deploys wireless broadband Internet access and technology services to businesses and consumers across the Wabash Valley region, small towns and rural communities in Eastern Indiana and Eastern Illinois.
Juniper Networks Inc.	Vendors	www.juniper.net	1194 N. Mathilda Ave.		Sunnyvale	CA	94089	USA		408-745-2000	Juniper Networks is a leading supplier of network equipment. For municipal wireless deployments, its service deployment system (SDX) makes it possible for service providers to rapidly create and deploy new IP services. These IP services include video on demand, IP television, and integrated voice and data. Services are offered over a variety of broadband access technologies.
Karacomm Consultants	Consultants	www.karacomm.com						USA		info@karacomm.com	Karacomm works with communities building out municipal wireless networks to develop programs that ensure that those investments drive value to residents. They give opportunities to strengthen communities in reaching goals, improving education and creating positive outcomes.
Keyspan Communications	Integrators	www.keyspancommunications.com	1377 Motor Parkway	Suite 206	Islandia	NY	11749	USA	631-300-3707		Keyspan is the local power company on Long Island that is part of the team building the municipal wireless network across Nassau and Suffolk counties. It is participating in the project with Cisco and e-Path Communications.
Kingston Cole & Associates	Consultants	www.kingstoncole.com	1537 Fourth St.	Suite 169	San Rafael	CA	94901	USA	415-455-0800	kca@kingstoncole.com	Kingston Cole & Associates is a telecommunications consulting firm that focuses primarily on working with government agencies, including state departments of transportation, transit agencies, municipalities and regional government agencies. Among other services, it helps government agencies recognize and appraise their assets.
Kissinger & Fellman, P.C.	Consultants	www.kandf.com	773 Cherry Creek N. Drive: P	Suite 900	Denver	CO	80209	USA	303-320-6100	kfellman@kandf.com	Kissinger & Fellman represents local governments, and governmental associations in connection with telecommunications, deployment of wireless broadband networks, public safety communications issues and cable matters. The firm also works with local governments in connection with rights of way management, telecommunications/fund use issues, infrastructure development, legislative advocacy and litigation.
Kite Networks	Service Providers	www.wazmetro.com	613 Crescent Circle	Suite 200	Ridgeland	MS	39157	USA	866-929-9434		Kite Networks deploys wireless mesh WiFi networks for various municipalities. The company constructs, owns, operates and provides metro-scale outdoor WiFi services. Kite Networks also develops wireless broadband network services primarily located in municipally-sponsored areas. Kite announced recently that it has been acquired by Gobility Inc. Gobility also acquired NeoReach, which was a subsidiary of MobilePro Corp.
Kiva Networks	Integrators	www.kivanetworks.com	1140 U.S. 287	Suites 400-299	Broomfield	CO	80020	USA	888-548-2638	info@kivanetworks.com	Kiva Networks is a broadband Internet company that provides solutions and services such as community wireless networks, hotspots, wireless sensor networks, network monitoring and alerting, point to multipoint fixed wireless, VoIP for governments, educational institutions and public safety.
Laguna Broadcasting Network Inc.	Service Providers	www.lagunabroadcasting.net						USA	949-295-3423	info@lagunabroadcasting.net	Laguna Broadcasting provides wireless broadband Internet mesh network services for communities, residents, businesses, cities, harbors and marinas in Southern California.
LastMile Communications Ltd.	Applications	www.lastmilecoms.com	11404 Blackbrook Court		Raleigh	NC	27614	USA	919-844-4900	info@lastmilecoms.com	LastMile Communications, which recently raised a round of equity funding, is marketing a content delivery platform that allows municipalities and their partners to develop new revenue streams by delivering targeted content across their networks. This should open possibilities for municipalities to deliver localized, targeted content in the form of advertising. It would also allow them to deliver custom and time-sensitive content to promote major events, community activities, and other important information to residents.
LeapFrog Technologies	Applications	www.leapfrogtech.com	1730 Park St.	Suite 123	Naperville	IL	60563	USA	630-369-7318	lftech@leapfrogtech.com	LeapFrog Technologies offers solutions for public safety and location-aware advertising applications. The company provides a wireless multimedia software switch that public safety agencies can use to send surveillance videos, mug shots, or Amber Alerts to mobile devices where they are needed.
Leibowitz & Associates	Consultants	www.fitelecomlaw.com	One SE Third Ave.	Suite 1450	Miami	FL	33131	USA	305-530-1322	firm@broadlaw.com	The law firm of Leibowitz & Associates provides a comprehensive range of legal services to clients with respect to matters related to telecommunications, cable and broadcasting. The firm has represented all types of telecommunications clients including broadcasters, local governments, and wireless, Internet and satellite operators located throughout the country. Clients have ranged from one of the smallest radio stations in the country to Fortune 500 companies. In addition, the firm has represented over 70 local and global telecommunications providers.

Lensec LLC	Applications	www.lensec.com	1800 Bering Drive	Suite 751	Houston	TX	77057	USA	800-348-4234	info@lensec.com	Lensec provides the industry with custom software IP-based video surveillance solutions for safety and security to local government entities. The company specializes in public safety and metropolitan wireless initiatives that include security cameras.
Lok Technology	Vendors	www.loktechnology.com	2001 Gateway Place	Suite 500W	San Jose	CA	95110	USA	408-441-0100	info@lok.com	Lok Technology offers an appliance that provides a network management and provisioning solution for IP-revenue-generating networks. The company's WiFi network management and control appliances are part of Singapore's government-sponsored wireless@sg initiative.
Marketing Resources Inc. (Mri)	Consultants	www.aboutmri.com	2960 Pharr Court South	Suite 8S	Atlanta	GA	30305	USA	877-575-4949	info@aboutmri.com	MRI is a consulting firm that identifies, integrates and deploys wireless services and systems into municipal environments. The company helps municipalities develop workable business plans and create appropriate business models. It is widely known for being the consulting firm on the St. Cloud, Fla., deployment.
Meraki Networks Inc.	Service Providers	www.meraki.net	313 W. Evelyn Ave		Mountain View	CA	94041	USA	650-810-8500	sales@meraki.net	Meraki's mission is to bring affordable internet access to the next billion people. It's approach empowers individuals and groups to bring access to local communities. It began as an MIT Ph.D. research project that provided wireless access to graduate students and is now a privately held company backed in part by Google and Sequoia Capital. Meraki got its start at a low-income housing community in the U.S. and now has wireless networks in more than 25 countries around the world, ranging from urban apartment complexes in London to villages in India.
Mesh City	Vendors	www.meshcity.com	41655 Reagan Way	Suite H	Murrieta	CA	92562	USA		888-637-4289	Mesh City provides mesh wireless architecture and mesh products, WiSP solutions, VoIP solutions, fixed wireless, broadband mesh networking solutions, and access points. The company provides hardware, software and systems.
MeshDynamics Inc.	Vendors	www.meshdynamics.com	2953 Bunker Hill Lane	Suite 400	Santa Clara	CA	95054	USA	408-373-7700	info@meshdynamics.com	MeshDynamics provides products for outdoor networking and wireless mesh nodes as well as service inside homes and businesses, including ISP data services and video monitoring. The company's applications include metro and muni networking, video surveillance, and VoIP. MeshDynamics' technology also serves homeland defense agencies, military bases and deployed units, and public safety organizations.
MetroFi Inc.	Service Providers	www.metrofi.com	516 Clyde Ave		Mountain View	CA	94043	USA	414-672-5612	info@metrofi.com	MetroFi is one of the leading providers of municipal wireless networks in the U.S. It has built networks in Corcoran, Cupertino, Sunnyvale and Santa Clara, Calif., Aurora, Ill., and is building a network in Portland, Ore., among other cities. MetroFi's primary business model is to build ad-supported networks, but it has recently gone on record as seeking some level of anchor tenancy from the municipality.
Microsoft	Vendors	www.microsoft.com	One Microsoft Way		Redmond	WA	98052	USA		800-642-7676	Microsoft is conducting several market studies in muniwireless deployments, in places such as Portland, Ore., where it is partnering with MetroFi to deliver an advertising-supported network. It is also planning a more advanced user-testing market study in a 1,000-square-mile section of Oakland County, Mich. Beyond that, Microsoft is experimenting with WiFi-enabled buses in the Seattle area.
Midwest Fiber Networks	Service Providers	www.midwestfiber.com						USA		nivancevic@midwestfiber.net	Midwest Fiber Networks designs, develops and implements fiber networks and wireless broadband access solutions for municipalities. In addition, the company leases and sells bandwidth to organizations. Midwest Fiber Networks is the vendor selected to build the network in Milwaukee, Wis., but there have been problems and there is speculation the network might not get built.
Mobi Axxess LLC.	Service Providers	www.mobiaxxess.com	3155 East Patrick Lane		Las Vegas	NV	89120	USA	888-595-0333	info@mobiaxxess.com	Mobi Axxess Wireless delivers next-generation two-way broadband WiMAX services to government, education and business markets on large-scale meshes. For municipalities, it provides an owned service to all citizens. For education or business, it is ideal for corporations with multiple buildings across a large campus.
MobilePro Corp.	Vendors	www.mobileprocorp.com	6701 Democracy Blvd.	Suite 202	Bethesda	MD	20817	USA		301-315-9040	MobilePro is a wireless network systems technology and broadband telecommunications company. The company deploys wireless mesh network systems.
Moonblink	Integrators	www.moonblinkwifi.com	1211 Aldenwood Ave.		Sunnyvale	CA	94089	USA		877-623-5223	Moonblink is a distributor of wireless broadband solutions specializing in WiFi, WiMAX, indoor wireless LAN, antennas, WiFi mesh products and wireless backhaul systems for government, service providers, education and enterprise markets.
Motorola Inc.	Vendors	www.motorola.canopywireless.com	1303 E. Algonquin Road		Schaumburg	IL	60196	USA	847-576-5000	info@motorola.com	Motorola is one of the leading suppliers of WiFi mesh networks. Motorola's mesh network solutions support high-speed data, video and position location services for fixed and mobile users. In a Motorola Mesh Network the data links automatically self-form and self-heal between users and network infrastructure. Because every access point is meshed, backhaul, deployment and operational costs are reduced, which helps municipalities offer the security, capacity and performance needed for public safety applications.
MTI Wireless Edge Ltd.	Vendors	www.mtiwe.com	11 Hamelacha St.		Afek Industrial Park	Rosh-HaAishan	48091	Israel		972-3-9008900	MTI Wireless Edge produces flat-panel antennas for RFID and fixed wireless applications.
Multistate Associates	Consultants	www.multistate.com	515 King St.	Suite 300	Alexandria	VA	22314	USA	703-684-1110	phallman@multistate.com	Multistate Associates is a lobbying organization that has a network of lobbyists in every state capital, major city and U.S. territory. Its services include legislative and regulatory monitoring, issue management, research, state and local government procurement, and legislative and administrative lobbying.
Navini Networks	Vendors	www.navini.com	2240 Campbell Creek Blvd.		Richardson	TX	75082	USA	972-852-4200	sales@navini.com	Navini is a provider of WiMAX-based mobile solutions, including subscriber modems, base stations, adaptive antenna arrays and management systems.
NebuAd Inc.	Applications	www.nebuad.com	901 Marshall St.	2nd Floor	Redwood City	CA	94063	USA	877-763-2823	info@nebuad.com	NebuAd offers an online advertising solution to service providers and municipalities that is designed to drive revenue through targeted ad placements. The company provides information about the delivery and placement of online ads, and has experience in advertising systems, analytics, CRM, intrusion detection and security.
NeoReach Wireless	Integrators	www.wazmetro.com	613 Crescent Circle	Suite 200	Ridgeland	MS	39157	USA	601-914-2000		NeoReach Wireless is the integrator that built the muniwireless network in Tempe and Chandler, Ariz., as a subsidiary of MobilePro. It was recently acquired by Gobility, Inc., along with Kite Networks.
Neptune Technology Group	Applications	www.neptunetg.com	1600 Alabama Highway 229		Tallassee	AL	36078	USA	800-0633-8754	customerservice@neptunetg.com	Neptune Technology Group supplies Automatic Meter Reading systems to the North American market. The company's R900 technology uses radio frequency communications in the unlicensed ISM band (902-928 MHz), and the devices are designed for WiFi based fixed network AMR systems.
Netarx	Integrators	www.netarx.com	30840 Northwestern Highway		Farmington Hills	MI	48334	USA	877-963-8279	info@netarx.com	Netarx offers IP telephony and VoIP network solutions to North American companies and governments, converging voice, data, video and mobility onto one network. The company is a Cisco Gold partner.
Netgear	Vendors	www.netgear.com	4500 Great America Parkway		Santa Clara	CA	95054	USA	408-907-8000	sales@netgear.com	Netgear provides wireless LAN installation products for municipalities large and small. The company offers wireless access points and client adapters with embedded RF management technology, autoCell, VoIP, switches, and wireless access points with security features.
Netstix Technologies Corp.	Applications	www.netstix.com	275 Michael Cowpland Drive	Suite 200	Ottawa, Ontario	Canada	K2M 2G2	Canada	613-599-5443	info@netstix.com	Netstix Technologies develops, markets and sells a fleet monitoring system and related applications for organizations that have significant fleet operations. The FleetPulse fleet monitoring system can leverage municipal WiFi networks, allowing them to support their fleet operations, reduce fleet operating costs, improve fleet safety and reduce emissions.
NetLogix	Consultants	www.netlogix.com	5752 Oberlin Drive	Suite 201	San Diego	CA	92121	USA	858-764-1972	sales@netlogix.com	NetLogix is a data networking consulting firm delivering solutions to municipalities such as cities, schools and public safety. NetLogix provides WiMAX and wireless solutions for carriers and equipment vendors, as well as consultation services for strategic corporate development, business development, network architecture and planning.
NetMethods	Integrators	www.netmethods.com	1515 Poydras St.	Suite 2340	New Orleans	LA	70112	USA	504-208-4775	sales@netmethods.com	NetMethods is a systems integration and consulting firm that provides municipal network solutions across the US. The company has implemented IP addressable video surveillance systems and PDA applications including meter reading, in-car monitoring and ticketing systems.
Netmotion Wireless	Applications	www.netmotionwireless.com	701 N 34th St.	Suite 250	Seattle	WA	98103	USA	206-691-5555	sales@nmwco.com	Netmotion Wireless is a provider of mobile virtual private networks (VPN). Its mobile VPN gives mobile workforces secure and simple remote access to network resources and applications over an IP-based network. In addition to municipal applications, the company's Mobility XE Mobile VPN is used in some of the most mission critical and secure mobile computing environments for public safety applications.

NetNearU Corp.	Applications	www.nnu.com	2908 Finfeather Road		Bryan	TX	77801	USA	888-281-7123	sales@nnu.com	NetNearU Corp. provides an operations support system (OSS) for managing public Internet access networks including WiFi, Wi-MAX, hotspot and metro deployments. The company's software solution, Trackos, provides authentication, billing, roaming support, network operability monitoring, configuration and reporting. NetNearU also provides branded end-user call center services.
Network Anatomy	Integrators	www.networkanatomy.net	74 W. Neal St.		Pleasanton	CA	94566	USA	925-548-4036	business@networkanatomy.com	Network Anatomy provides architectural services to support 3G and 4G WiFi and WiMAX network technologies for public safety and public access. The company focuses on municipal networks, maritime wireless networks, test and evaluation networks, public safety networks, port security networks, meshed networks, mobile wireless communications and fleet and cargo container communications.
NextPhase Wireless	Integrators	www.npwireless.com	300 S. Harbor Blvd		Anaheim	CA	92805	USA	714-765-0010	info@nptinc.net	NextPhase Wireless designs, deploys and operates wireless networks and provides integrated Internet, voice and data communication solutions to businesses and municipalities. The company supports wireless services and has experience with WiSP and wireless broadband networks operating on the 4.9 GHz spectrum specifically designated for public safety, emergency management and homeland security applications.
NextWave Wireless Inc.	Vendors	www.nextwave.com	12670 High Bluff Drive		San Diego	CA	92130	USA	858-480-3100	nwinfo@nextwave.com	NextWave develops WiMAX semiconductors, end-to-end network solutions, and device-embedded multimedia software for municipalities worldwide. From WiMAX/WiFi chipsets to mobile device software, the company provides handset manufacturers, network equipment vendors and wireless service providers the products and technologies needed to deliver wireless broadband services.
NextWLAN Corp	Integrators	www.nextwlan.com	16400 Lark Ave.	Suite 210	Los Gatos	CA	95032	USA	408-356-8070	info@nextwlan.com	NextWLAN enables municipal Internet access through CityNet, a broadband provider-facilitated service and equipment bundle that provides subscription and/or transaction-based WiFi Internet access to residential communities, office/apartment building complexes, downtown business/shopping/entertainment districts or even entire cities. The company also offers gatekeeper and hotspot technology.
Nighthawk Systems Inc.	Applications	www.nighthawksystems.com	10715 Guifdale.	Suite 200	San Antonio	TX	78216	USA	877-764-4484	sales@nighthawksystems.com	Nighthawk Systems Inc. is a provider of wireless power control products. Nighthawk's installed customer base includes major electric utilities, Internet service providers, fire departments, traffic control and emergency notification situations across the nation.
Nokia	Vendors	www.nokia.com	6000 Connection Drive		Irving	TX	75039	USA	972-894-5000	communication.corp@nokia.com	Nokia comprises three international business groups: mobile phones, multimedia and enterprise solutions. It produces a wide range of mobile devices, providing experiences in music, navigation, video, television, imaging, games and business mobility. The company also provides equipment, solutions and services for communications networks.
Nomadix	Vendors	www.nomadix.com	1100 Business Center Circle	Suite 100	Newbury Park	CA	91320	USA	818-597-1500	info@nomadix.com	Nomadix provides public access WiFi gateways and services. The company offers access gateways that run the Nomadix Service Engine software to public access service operators and venue owners. Nomadix focuses on solutions for public access hotspot and metropolitan hot zones.
Nortel	Integrators	www.nortel.com	2221 Lakeside Blvd		Richardson	TX	75082	USA	972-684-1000	nortelr@nortel.com	Nortel is a multi-national nonprofit organization that brings broadband to the homes of low-income people. The company works to ensure the affordability, accessibility and utility of municipal wireless initiatives by consulting with businesses and local governments interested in providing products and services to people with low incomes, and providing technical assistance for wireless networks.
Northrop Grumman Corp.	Integrators	www.northropgrumman.com	1840 Century Park		East Los Angeles	CA	90067	USA	310-332-7309	cynthia.curiel@ngc.com	Northrop Grumman provides solutions for government and commercial clients that include secure wireless, IT data network infrastructure, managed services, and application development and support. They offer wireless data collection solutions focusing on manual, electronic and automatic meter reading. It was the systems integrator for the munireless deployment in Corpus Christi, Tex., building an automated meter reading network that became the backbone network for the state of Texas.
Novax Industries Corp.	Applications	www.novax.com	658 Derwent Way		New Westminster, BC	Canada	V3M 5P8	Canada	866-977-4277	info@novax.com	Novax designs and manufactures electronic traffic control products for intelligent transportation systems (ITS) and can build and install an ITS solution for almost any size municipality. Novax's product line includes transit signal priority systems, audible pedestrian signals, pedestrian crossing controllers and push buttons, fire hall controllers, and a range of adaptable controller mainframes.
Omera Inc.	Service Providers	www.omerainc.com						USA	866-455-0422	contact@omerainc.com	Omera is a wireless provider, delivering converged wireless network solutions for cities and towns worldwide. Omera offers the wireless mesh technology, support and maintenance for public safety, video surveillance, automated meter reading, RFID tagging and public WiFi networks.
One Economy	Consultants	www.one-economy.com	450 Seventh Ave.	Suite 705	New York	NY	10123	USA	212-631-7928	crichardson@one-economy.com	One Economy is a multi-national nonprofit organization that brings broadband to the homes of low-income people. The company works to ensure the affordability, accessibility and utility of municipal wireless initiatives by consulting with businesses and local governments interested in providing products and services to people with low incomes, and providing technical assistance for wireless networks.
Outsource Inc.	Integrators	www.outsource-inc.com	397 Wekiva Springs Road	Suite 117	Longwood	FL	32779	USA	407-774-1951	info@outsource-inc.com	Outsource Inc. is a voice and data communications services company that offers the design and implementation of wireless infrastructure and solutions. The company provides solutions for wireless applications including site surveys, engineering and design, installation, configuration, integration and support.
Pacific LightNet Communications	Service Providers	www.plni.net	1132 Bishop St.	Suite 800	Honolulu	HI	96813	USA	888-478-1414	info@PacificLight.net	Pacific LightNet Inc. (PLNI) offers products and services, including Canopy Wireless broadband systems from 1.54Mbps to 200Mbps, WiFi Internet hotspots with daily, weekly and monthly plans, wireless links, LAN extensions, and 100Mb Ethernet handoffs. The company also offers site surveys, port configuration, installation, radio alignment and maintenance.
Pacific Wireless Communications	Service Providers	www.pwchi.com	710 Kakoi St.		Honolulu	HI	96819	USA	808-837-4300	websales@pwchi.com	Pacific Wireless Communications is a wireless systems integrator that provides service to Hawaii's government and commercial customers. The company offers a wireless broadband 5.1GHz cany system which uses point-to-point and point-to-multipoint networks. Pacific Wireless has experience with wireless LAN, IT and data services, maintenance, VoIP, and GPS vehicle tracking solutions.
Packet Design Inc.	Applications	www.packetdesign.com	3400 Hillview Ave.	Building 3	Palo Alto	CA	94304	USA	650-739-1850	info@packetdesign.com	Packet Design develops IP network solutions for government and military agencies working with IP infrastructures. Packet Design solutions provide network-wide monitoring and analysis of routing and traffic flows, which help to avoid disruption or downtime for agencies that deliver services with municipal scope.
Packethop Inc.	Applications	www.packethop.com	333 Ravenswood Ave.		Redwood City	CA	94025	USA	650-292-5005	info@packethop.com	Packethop develops software that creates mobile mesh communications for public safety, utilities, video surveillance, transportation and emergency purposes. The 4.9 GHz public safety band allows a suite of applications to offer multicast video, GPS positioning, instant messaging, and white boarding, while expanding the "edges" of multi-WiFi to areas requiring occasional connectivity.
Panasonic Corp.	Vendors	www.panasonic.com	One Panasonic Way		Secaucus	NJ	07094	USA		201-348-7000	Panasonic positions its Toughbook line of mobile ruggedized personal computers for the municipal wireless market, particularly for use by city agencies and first responders. Toughbooks are engineered to withstand the daily rigors and environmental extremes often faced by law enforcement agencies, EHS professionals, counter-terrorism forces, building inspectors, property assessors, public works employees and environmental inspectors.
Parasun Technologies Inc.	Applications	www.parasun.com	628 Sixth Ave.,	Third Floor	New Westminster,	Canada	V3M 6Z1	Canada	804-357-0057	info@parasun.com	Parasun Technologies provides software solutions and support services for service providers and municipalities deploying broadband networks. Parasun supports point-to-multipoint wireless networks, wireless hotspots and wireless mesh networks, and also offers bandwidth and traffic tools, mapping, custom dashboards and reporting tools, alarm systems, OSS software, hosted ISP services, VoIP support services, and a 24/7 Help Desk.
PCC Network Solutions	Integrators	www.pccinc.com	9340 Eton Ave.		Chatsworth	CA	91311	USA	800-313-1911	info@pccinc.com	PCC Network Solutions is an integrator that offers city governments an indoor/outdoor WiFi network that enables broadband applications in mobile public safety environments such as mobile database access, video surveillance, and GIS inquiries. The company also has experience with cabling infrastructure, IEEE 802.11b, g and wireless LAN solutions, license-free fixed wireless solutions, hotzones and hotspots.
Penfield-Gill Inc.	Consultants	www.jockgill.com						USA		jock@jockgill.com	Penfield Gill is a consulting firm specializing in new media communications, marketing, and strategic planning. The firm also provides its clients with special scouting services: people, ideas and companies. PGJ focuses on opportunities in network technologies.
PePLink	Vendors	www.peplink.com	800 W. El Camino Real		Mountain View	CA	94040	USA	650-396-7521	info@peplink.com	PePLink designs, manufactures and markets integrated broadband devices and solutions. PePLink's products have been deployed by service providers, public safety agencies, city governments and enterprise customers. It specializes in Internet redundancy, link load balance, failover, high availability and continuity solutions.
Perftech Inc.	Applications	www.perftech.com	3201 Cherry Ridge	Suite C-319	San Antonio	TX	78230	USA	210-893-4000	contact@perftech.com	Perftech brings Internet providers a communications tool whose applications include insertion of advertising, promotions, subscriber care messaging, and national emergency and Amber alerts.
Personal Democracy Forum	Consultants	www.personaldemocracy.com						USA		pdf@personaldemocracy.com	Personal Democracy Forum envisions their site as one hub for the conversation already underway between political practitioners and technologists, as well as anyone interested in opening up the political process and engaging more people in it. The organization experiments with blogging, investigative journalism, interviews, profiles and guest columns, with a focus on new tools, processes, uses and trends.

Pioneer Consulting	Consultants	www.pioneerconsulting.com	2B Abbott Court		Woburn	MA	01801	USA	781-281-1974	info@pioneerconsulting.com	Pioneer Consulting is a consulting firm specializing in global telecommunications networks and technologies. The company provides research on technologies in the wireless space, both fixed and mobile, and focuses on wireless LAN, Software Defined Radio (SDR), wireless backhaul, and 2G, 3G, and 4G cellular technologies. They also offer custom consulting and marketing services.
PMC Sierra Inc.	Vendors	www.pmc-sierra.com	3975 Freedom Circle		Santa Clara	CA	95054	USA	408-239-8000	sales@pmc-sierra.com	PMC Sierra provides broadband communications and storage semiconductor products for metro, access, fiber-to-the-home, wireless infrastructure, storage, laser printers and fiber-access gateway equipment.
Primal Solutions Inc.	Applications	www.primal.com	18881 Von Karman Ave.		Irvine	CA	92612	USA	949-260-1500	Sam.Gilson@primal.com	Primal Solutions provides solutions for streamlining and improving IP transaction management. In the municipal wireless market its products enable service providers to offer flexible pricing plans to a wide array of users expand service reach and financial support for digital divide initiatives hold partners responsible for provisioning, and manage the complexities of multi-WiFi.
PrimeNet	Integrators	www.primenetworks.com	220 Eighth Ave.		Glen Burnie	MD	21061	USA	888-256-7110	info@primenetworks.com	PrimeNet is a systems integrator that specializes in managing voice, data, video and security communication systems. PrimeNet wireless services include manufacturer certified staff for the design, installation and configuration of WiFi systems, enterprise wireless LAN systems and building-to-building private wireless links and feasibility and security assessments.
Procera Networks	Applications	www.proceranetworks.com	100 Cooper Court		Los Gatos	CA	95032	USA	877-776-2372	john.saltmarsh@proceranet	Procera Networks is a global provider of network traffic identification, management and control solutions for broadband service networks. Procera's PacketLogic line of appliances enables users to monitor and analyze network traffic. The company also allows service providers to differentiate their services based on bandwidth rate, access or denial of applications, and/or volume of delivery.
ProjectSafety	Consultants	www.projectsafety.org	100 Second Ave. N.	Suite 130	St. Petersburg	FL	33701	USA	727-735-8258	info@projectsafety.org	ProjectSafety is a technology and business solution focused on testing and deploying municipal broadband wireless networks. Its Community Network Integration (CNI) model addresses both technology requirements and business needs in offering a single network solution for both the public and private sector. This model allows community-wide wireless network access in a shared mesh and mobile mesh network. A few applications include mobile private access, emergency services, and public safety.
Pronto Networks	Applications	www.prontonetworks.com	4637 Chabot Drive	Suite 350	Pleasanton	CA	94588	USA	925-227-5500	webmaster@prontonetworks.com	Pronto Networks provides operations support systems (OSS) that enable network operators to deploy and manage large public hotspot networks and multiwireless networks. The company's software handles provisioning, configuration, authentication, access control, security, prepaid and post-paid billing, and roaming settlement for large public WLAN networks, in addition to remotely managing and updating multivendor hardware and WiFi switches.
ProVision Communications	Consultants	www.pvcsolutions.com	2226 W. Northern Ave.	Suite C-212	Phoenix	AZ	85021	USA	602-216-6300	info@pvcsolutions.com	ProVision Communications is a consulting firm that provides wireless network design, implementation, testing, and performance and expenses. The company helps municipalities analyze and deploy wireless technologies including Internet, data and voice services. Some of ProVision's services include telecommunications auditing, network design, security, VoIP implementation, infrastructure growth strategies, telecommuting/e-business strategic development and wireless backhaul technologies.
Proxim Wireless Corp.	Vendors	www.proxim.com	2115 O'Neil Drive		San Jose	CA	95131	USA	800-229-1630	mrohbaugh@proxim.com	Proxim Wireless is a provider of broadband wireless solutions for service providers, enterprises and municipalities. The company's variety of applications, including multisite connectivity, broadband access and backhauling, can support TDM and Ethernet over one platform, and can operate in the unlicensed and licensed 2.3-2.4GHz and 4.9-5.9GHz spectrum bands.
Proximity Inc.	Applications	www.proximity.com	909 W. Laurel St.	Suite 200	San Diego	CA	92101	USA	619-704-0020		Proximity provides operation support system solutions for wireless network management. Its software solutions provide performance and network management tools for wireless networks. The company's solutions are for network operators, public safety, transportation and energy.
Public Safety Broadband Consortium	Consultants	www.publicsafetycommunications.org						USA	925-683-5222	mobile@publicsafetybroadband.org	Public Safety Broadband is an online resource that focuses on WiFi4.9 GHz technology and offers news, vendors, events, white papers, and information concerning broadband technology for public safety. The organization helps with solutions such as citywide 4.9 GHz mesh networks, in-car mobile mesh video solutions, incident Scene or Event Management, and police vehicle video connectivity, video surveillance cameras.
R@TECH	Integrators	www.raetech.net	23262 Arroyo Vista		Rancho Santa Margarita	CA	92688	USA	949-459-0901	info@raetech.net	R@TECH is a solutions provider for wireless networks. Applications include municipal wireless supporting video surveillance for safety, municipal wireless for consumer access and community services, hotspots, hotzones, and VoIP. The company can help run licensed or unlicensed point to point/multipoint, mesh and fixed wireless networks.
R3 Strategis LLC	Consultants	www.r3strategis.com	67 Wall St.	22nd Floor	New York	NY	10005	USA	212-709-8110	info@r3strategis.com	R3 Strategis is a consulting services firm with a focus on the municipal wireless industry, serving cities and governments of all sizes. The company's services include site surveys, economic coalition building and technical support. R3 Strategis also has experience with wireless mesh, point-of-sale and wireless packaging.
Radiant Networks LLC	Vendors	www.radiant-networks.com	P.O. Box 991516		Louisville	KY	40269	USA	866-411-9526	info@radiant-networks.com	Radiant Networks specializes in mesh technology for broadband wireless access. Its solutions also deliver data services to businesses, residential and mobile subscribers.
Radwin Ltd.	Vendors	www.radwin.com	27 Habarzel St.		Tel Aviv		69710	Israel	800-444-7234	sales@radwin.com	Radwin is a provider of broadband wireless solutions for service providers, enterprises and municipalities. The company's variety of applications, including multisite connectivity, broadband access and backhauling, can support TDM and Ethernet over one platform, and can operate in the unlicensed and licensed 2.3-2.4GHz and 4.9-5.9GHz spectrum bands.
rClient LLC	Integrators	www.rclient.com	4909 Fremont Ave.		South Minneapolis	MN	55419	USA	612-279-1175	info@rclient.com	rClient is a telecommunications and information technology firm specializing in planning, technology design, acquisition and management. The company has provided metro scale broadband wireless networks to users focused on public safety applications and city services. Client is working with the City of Minneapolis on its deployment.
RedMoon Broadband	Integrators	www.redmoonbroadband.com	625 Digital Drive	Plano		TX	75075	USA	972-599-5900	t1sales@redmoonbroadband.com	RedMoon Broadband is a provider of broadband wireless solutions for service providers, enterprises and municipalities. The company's variety of applications, including multisite connectivity, broadband access and backhauling, can support TDM and Ethernet over one platform, and can operate in the unlicensed and licensed 2.3-2.4GHz and 4.9-5.9GHz spectrum bands.
RedZone Wireless Inc.	Service Providers	www.redzonewireless.com	413 Main St.	Suite 205	Rockland	ME	04841	USA	207-596-5700	info@redzonewireless.com	RedZone provides Internet service to communities in Maine. The RedZone network is wireless mesh with standards-based 802.11 WiFi technology, using mesh radios to backhaul customer traffic, and enabling hotspot connectivity for mobile customers including local police, fire and EMS. The company also offers site surveys, cost estimates, deployment, installation, monitoring and management.
Resolute Partners	Integrators	www.resolutepartners.com	37 W. Center St.	Suite 301	Southington	CT	06489	USA	860-628-6800	contact@resolutepartners.com	Resolute Partners is a leading provider of public Internet access to U.S. military bases worldwide and to the lodging/hospitality industry. Its solutions include cyber cafes, kiosks, WiFi hotspots, business centers, LAN game arcades and managed desktop services.
RF Connect	Integrators	www.rfconnect.com	27260 Haggerty Road	Suite A11	Farmington Hills	MI	48331	USA	248-489-5800	info@rfconnect.com	RF Connect installs municipal wireless systems, and provides design services, installation, training, operation and maintenance. The company offers WiFi or Wimax networks providing Internet access, municipal services, automatic meter reading, more visible government, access to emergency or homeland security services, fixed, portable and mobile access, and location-based services.
Ricochet Networks	Service Providers	www.ricochet.com	1400 Glenarm Pl.		Denver	CO	80202	USA	303-572-1200	info@ricochet.com	Ricochet is a mobile wireless Internet service provider (WISP) that supplies a wireless Internet platform for municipalities, focusing on public safety, transportation and security. The company serves cities and governments of all sizes and offers a variety of deployment solutions, including WiFi, Wimax, point-to-point, 4.9GHz and, in many cases, a combination of those.
RITE Brain Consulting	Consultants	www.ritebrain.net	5008 S. Nelson St.	Suite B	Littleton	CO	80127	USA	303-932-8197	info@ritebrain.net	RITE Brain provides consulting services for municipalities. The company offers planning, organizing, decision-making and demand assessment services, as well as a financial modeling tool and wireless security options. RITE Brain works with municipalities in Requests for Information/Proposals/Quotes, and supplies statements that enable stakeholders to understand how the network will be utilized.
RoamAD Ltd.	Vendors	www.roamad.com	110 Symonds St., Shortland	Level 7, P.O. Box 2024	Auckland		01140	New Zealand	650-488-4861	press@roamad.com	RoamAD is unique among the major mesh vendors in that it has developed its wireless networking software platform from the multi-radio node hardware. RoamAD has proven experience in the metro WiFi market and is a leader in support for high-speed mobile VoIP/WiFi. The world's first metro WiFi network was deployed by RoamAD in Auckland, New Zealand, and the world's first highway WiFi corridor was deployed utilizing RoamAD's technology on the I-19 in Arizona.
Ruckus Wireless	Vendors	www.ruckuswireless.com	880 W. Maude Ave	Suite 101	Sunnyvale	CA	94085	USA	650-265-4200	info@ruckuswireless.com	Ruckus Wireless was formed to make WiFi reliable enough to be used as a utility in the home, office, hot spots and municipalities around the world. The company designs, develops and markets three lines of products: An industrial-strength wireless LAN system for small/medium businesses; A multimedia WiFi system for broadband carriers, and an advanced metro WiFi modem for broadband wireless providers.
Saulsbury Hill Financial	Consultants	www.saulhill.com	1614 15th St.	3rd Floor	Denver	CO	80202	USA	888-728-5445	info@saulhill.com	Saulsbury Hill specializes in leasing solutions for federal, state and local government. These include large project and lease financing for virtually all terms and asset types, including municipal wireless networks.

Save Muni Wireless	Consultants	www.savemuniwireless.org						USA		info@savemuniwireless.org	Save Muni Wireless is a coalition of Texas organizations and citizens that defeated the provisions in Texas House Bill 789 that prohibit rights of municipalities to provide wireless service. The organization focuses on furthering municipal wireless involvement in communities.
SBA Communications	Integrators	www.sbasite.com	5900 Broken Sound Parkway		Boca Raton	FL	33487	USA	800-487-7483	information@sbasite.com	SBA Communications provides broadband solutions focusing on short- to medium-length connections. The company offers network design, implementation and maintenance and also has experience with Publicly Switched Telephone Networks (PSTN) through the use of broadband wireless technology. SBA Networks can be used for primary backhaul capabilities or as a backup.
Scientel Wireless LLC	Integrators	www.scientelwireless.com	1007 Oak Creek Drive	Lombard		IL	60148	USA	630-652-3807	nsantos@scientelwireless.com	Scientel Wireless is a technology services company with expertise in wireless communications networks, focused on the following primary areas: police and public safety networks, intelligent transportation systems, municipal and state government networks, broadband solutions for healthcare and educational institutions, and broadband Internet networks. Scientel is the systems integrator for the munireless network in Buffalo, Minn.
Seakay Inc.	Consultants	www.seakay.org	467 Texas St.		San Francisco	CA	94107	USA	415-262-0305	metroconnect@seakay.org	Seakay is a public benefit corporation that seeks broader community engagement and enhanced ROI in the regional broadband market. It is involved in the Wireless Silicon Valley project, along with Cisco, IBM and Azulstar.
Secured Services Inc.	Applications	www.secured-services.com	11490 Commerce Park Drive	Suite 240	Reston	VA	20191	USA	866-419-3900		Secured Services offers municipalities integrated solutions for end-to-end encryption of mobile data communications across any wireless IP network. Identiprise SecuredMobile is a platform that can be deployed over any type of network transport or equipment. Secured Services also offers an advanced security network, strategic review, internal and external risk audit, and managed services.
Sentinel Technologies Inc.	Integrators	www.sentinel.com	2550 Warrenville Road		Downers Grove	IL	60515	USA	630-769-4343	infosenter@sentinel.com	Sentinel provides complete government technology solutions encompassing applications, networks, telecommunications and support. Sentinel's LANWAN staff provides assessments, design, deployment and support. The company's network solutions enable municipalities to deploy new technologies for virtual private networks, voice/data/video integration and wireless networks.
Shotspotter, Inc.	Applications	www.shotspotter.com	1060 Terra Bella Avenue		Mountain View	CA	94043	USA	888-274-6877	rmitchiner@shotspotter.com	ShotSpotter offers gunshot location and detection systems for the public safety and military markets.
Siemens Communications Inc.	Integrators	www.communications.usa.siemens.com	1001 Yamato Road		Boca Raton	FL	33431	USA	561-923-8347	joepeterson@siemens.com	Siemens is one of the world's largest suppliers of telecommunications equipment and has moved fairly aggressively into munireless through its HiPath Managed Services platform, which provides support and continuous monitoring of citywide municipal networks. Siemens HiPath Managed Services offer a single point of contact and accountability for service needs within multivendor communications infrastructures. In munireless applications, the services are being provided through the use of Siemens' Managed Services.
Simdesk Technologies Inc.	Applications	www.simdesk.com	3900 Essex Lane,	12th Floor	Houston	TX	77027	USA	866-746-3375	support@simdesk.com	Simdesk Technologies provides Web-based software that is used for desktop applications such as word processing, spreadsheets, printing and e-mail management. Clients access the software from Web browsers, with data and applications hosted and stored on Simdesk's servers. The company targets government agencies, cities and educational institutions and is particularly focused on eliminating the digital divide.
Skyhook Wireless Inc.	Vendors	www.skyhookwireless.com	332 Congress St.		Boston	MA	02210	USA	617-314-9802	sales@skyhookwireless.com	Skyhook pioneered the development of the metro-area positioning system to leverage WiFi access points rather than satellites or cell towers to deliver precise geographic location. The Skyhook system requires no new hardware, works indoors and outdoors, and provides location instantly.
SkyPilot Networks Inc.	Vendors	www.skypilot.com	2055 Laurelwood Road		Santa Clara	CA	95054	USA	866-759-7456	info@skypilot.com	SkyPilot Networks provides wireless mesh solutions that enable service providers, municipalities and public safety agencies to deploy broadband access, 2.4GHz public WiFi, last-mile broadband, 4.9GHz public safety, video surveillance, Voice over IP (VoIP), and automatic meter reading services. The company offers a variety of specific applications for municipal police, fire and EMS departments as well. SkyPilot's equipment is used in a large number of municipalities across the United States.
Smart Bridges	Vendors	www.smartbridges.com						USA	1-760-477-7090	www.smartbridges.com	SmartBridges' wireless connectivity products allow communication service providers to deploy wireless broadband networks worldwide in markets such as telecom, video surveillance, utilities, and defense. The company's products range from wireless backhaul, access points, antennas and network management.
Smart City	Service Providers	www.smartcity.com	P.O. Box 22555		Lake Buena Vista	FL	32830	USA	407-828-6748	info@smartcity.com	Smart City provides wireless Internet service to hospitality venues, convention centers, and cities across the U.S. It offers communications such as voice, data and video, and has experience in establishing communitywide WiFi networks and hotspot zones.
SmartSynch Inc.	Applications	www.smartsynch.com	4400 Old Canton Road	Suite 300	Jackson	MS	39211	USA	888-362-1780	information@smartsynch.com	SmartSynch provides metering solutions for the energy and utility industries. The SmartMeter System enables companies to communicate with electricity meters using wireless networks. They manage the delivery of information to any application system, workstation, computer or browser-enabled personal communication device.
SmartWires	Integrators	www.smartwires.net	13015 S.W. 89th Place	Suite 144	Miami	FL	33176	USA	305-801-4895	info@smartwires.net	SmartWires specializes in wireless solutions geared towards citywide deployments, residential communities, college campuses, and hotels. The company offers WiFi solutions in South Florida and is enabling WiFi networks for service providers and establishments in the U.S., Africa, the Caribbean and Latin America.
Snap Technologies Inc.	Applications	www.snap.com	130 W. Union Street		Pasadena	CA	91103	USA	626-585-6900	partner@snap.com	SnapTech provides Web design services and a suite of web marketing, web productivity and content management tools. The company focuses on small and medium-size businesses and also offers consulting services including Internet writing and graphics; e-marketing strategies, content management; search engine optimization; statistics reporting; and a variety of hosting packages.
Softcom Internet Communications	Service Providers	www.softcom.net	10225 Twin Cities Road		Galt	CA	95632	USA	888-776-2630	info@softcom.net	Softcom Internet Communications provides Internet service for municipal wireless broadband. The company's packages range from fixed wireless to citywide WiFi, and it also offers Web hosting, IP connections, consulting services, security software and technical support staff.
SOHO Wireless	Service Providers	www.sohowireless.com						USA	408-371-2135	info@sohowireless.com	SOHO Wireless provides 802.11-based wireless data networks, which can support from one to 50 users. Hot zones are also available through LANRoamer access points where there are high concentrations of clients.
Sonic.net Inc.	Service Providers	www.sonic.net	2260 Apollo Way		Santa Rosa	CA	95407	USA	888-766-4233	sales@sonic.net	Sonic.net is an Internet provider enabling business, residential and citywide wireless connection. Sonic.net wireless broadband access delivers connectivity with multiple static IP addresses, and brings Internet access to areas where the telephone and cable companies can't. The company also offers hotspot technology and technical support.
Spacient Technologies Inc.	Applications	www.spacient.com	5001 Airport Plaza Drive	Suite 210	Long Beach	CA	90815	USA	562-420-3200	info@spacient.com	Spacient Technologies Inc. provides integrated mobile geographic information system (GIS) and location-based field solutions for organizations with large mobile workforces such as governments, utilities and corporations. Spacient delivers integrated software that leverages wireless technologies and improves field service, asset maintenance, security and emergency response.
Sprint Nextel	Service Providers	www.sprint.com	2001 Edmund Halley Drive		Reston	VA	20191	USA	703-433-4000		Sprint is pinning much of its wireless hopes on its \$3 billion-plus investment in a WiMAX network that is scheduled to roll out in 18 U.S. cities by the end of next year. Recently Sprint announced a 20-year partnership with Clearwire to jointly construct the network. Among other locations, Sprint and Clearwire are targeting several municipalities that already have plans for muni WiFi networks, including Boston, Minneapolis, Philadelphia and Portland, Ore.
StratusWave Communications	Service Providers	www.stratuswave.net	1025 Main St.	Suite 900	Wheeling	WV	26003	USA	877-906-9283		StratusWave Communications offers local and long-distance telephone and Internet services to businesses and residential users. It is a public utility regulated by the West Virginia Public Service Commission.
Strix Systems	Vendors	www.strixsystems.com	26610 Agoura Road	Suite 110	Calabasas	CA	91302	USA	877-787-4979	sales@strixsystems.com	Strix systems provides high performance mesh networking systems to deliver broadband access across large urban areas, rural counties and entire regions—ideal for government agencies, public safety, wireless ISPs, and any mobile users who want uninterrupted service on a citywide basis. Strix Systems enables the fast and efficient installation of mesh networks to deliver data, voice, and video. With support for all 802.11 technologies both in the wireless mesh and in the wired core, Strix delivers mesh networks for: <i>Transport, Fire, Protection and Monitoring, Home and Business, and Mobile</i> .
SunWize Technologies Inc.	Applications	www.sunwize.com	1155 Flatbush Road		Kingston	NY	12401	USA	800-817-6527	info@sunwize.com	SunWize meets telecom and WiFi application power needs using photovoltaic (PV) technology. SunWize solar electric systems have been deployed in frigid arctic regions as well as desert and tropical environments. They offer site analysis, personnel training and installation for applications such as traffic safety, security and rural development.
SureData Corp.	Consultants	www.suredata.com	40 West Main St.	2nd Floor,	Riverhead	NY	11901	USA	646-522-2315	wifi@suredata.com	SureData Corp. provides consulting services relating to universal broadband and wireless applications implementation. Its services include wireless applications development, project management, process re-engineering and vendor analysis and selection.

SweetStay.net	Applications	www.sweetstay.net	PO Box 1704		Soquel	CA	95073	USA	831-621-3962	tom@sweetstay.net	SweetStay provides community and hospitality informatics. These informatics put at the user's fingertips pertinent local information with directions in an easy-to-use one-click intuitive format. Venue content grows and is ranked organically as users add and access venues of interest. Each user's individualized infographic presents nearby venues and directions.
Talley Communications	Integrators	www.talleycom.com	12976 Sandoval St.		Santa Fe Springs	CA	90670	USA	562-906-8000	sales@talleycom.com	Talley Communications distributes wireless infrastructure, communications and mobile products for local public safety to nationwide centers and everything in-between. The company also offers guidance and training seminars, multiple distribution centers for delivery, custom delivery options and in-house custom cable assembly.
Time Warner Cable Inc.	Service Providers	www.timewarcable.com	160 Inverness Drive		West Englewood	CO	80155	USA	303-799-1200	support@twcny.com	The Time Warner Cable (TWC) has many of the same information cable and other companies, has taken a similar approach to the multiwireless market, fighting it in court and also taking small steps to limit it. It is running a pilot Internet access project in Cedarburg, Wis., and is also unveiling parts of Milwaukee. In a recent public tender, Time Warner Cable said it had contacted potential bidders seeking to partner with them in another municipal wireless project. It is also working with
T-Mobile	Service Providers	www.t-mobile.com	12920 S.E. 38th St.		Bellevue	WA	98004	USA	800-937-8997	customercare@t-mobilesup	T-Mobile USA is a national service provider of wireless voice, messaging and data services. It operates a WiFi wireless broadband network available in more than 2,800 public access locations. It offers hotspot connections and general access to the Internet with any device, data card or laptop.
Trango Broadband Wireless	Vendors	www.trangobroadband.com	14118 Stowe Drive	Suite B, Poway	San Diego	CA	92064	USA	858-653-3900	john@trangobroadband.com	Trango Broadband Wireless' equipment is offered to municipalities for WiFi backhaul extension, campus LAN expansion, Ethernet security and surveillance systems, and government applications. It offers point-to-point and point-to-multipoint products and services in the licensed and unlicensed frequency bands. Trango's point-to-point and multipoint platforms can deliver up to 45MBPS of Ethernet connectivity for more than 40 miles.
Transition Networks Inc.	Vendors	www.transition.com	6475 City West Parkway,		Eden Prairie	MN	55344	USA	800-526-9267	info@transition.com	Transition Networks provides conversion technology and specialized networking products for governments. These media conversion technologies are offered across a broad spectrum of networking protocols, including Ethernet, Fast Ethernet, Gigabit, T1/E1, DSS, ATM, V.35 and many more.
Tranzeo Wireless Technologies Inc.	Vendors	www.tranzeo.com	19473 Fraser Way		Pitt Meadows	British C	V3Y 2V4	Canada	866-872-6936	info@tranzeo.com	Tranzeo Wireless Technologies provides wireless broadband point-to-point, and point to multipoint solutions available in the 900MHz, 2.4GHz, 4.9GHz to 5.8GHz wireless spectrum. Tranzeo's radios, WiMAX equipment and mesh network solutions are designed for government entities and cities of all sizes.
Trapeze Networks	Vendors	www.trapezenetworks.com	5753 W. Las Positas Blvd		Pleasanton	CA	94588	USA	877-359-8779	info@trapezenetworks.com	Trapeze delivers Smart Mobile, a wireless networking approach that enables municipalities to deploy 802.11n mobile applications and leverage WLAN infrastructures.
Triplefly	Service Providers	www.wiflyer.com	3701 Kirby Drive	Suite 1090	Houston	TX	77098	USA	800-548-1135	info@alwaysonwireless.com	TripleFly was founded in 2003 as Always On Wireless Inc. It uses a combination of IPTV satellite equipment, fiber optics, gigabit Ethernet, broadband over power line and WiFi to provide Internet, phone and television services to multi dwelling apartments and condominiums.
Tropos Networks	Vendors	www.tropos.com	555 Del Rey Ave.		Sunnyvale	CA	94085	USA	408-331-6800	info@tropos.com	Tropos is one of the true pioneers in the multiwireless market, having been involved in many of the wireless deployments and being the equipment supplier for ground-breaking networks in locations such as Corpus Christi, Texas, and St. Cloud, Fla., among others. Tropos's MetroMesh network architecture delivers residential broadband access and serves small businesses and nomadic users. These networks support mission-critical broadband applications in mobile public safety, law enforcement, and other public safety applications.
Ubiquitynet Inc.	Applications	www.ubiquitynet.com	1400 NW Irving St.	Suite 511	Portland	OR	97209	USA	503-608-7530		Ubiquitynet is a security application service provider that helps Internet broadband providers to manage networks. The company provides home network security and management solutions for Internet broadband providers and their customers.
UHP Wireless Networks	Consultants	www.uhpwireless.com						USA		coreton@uhpwireless.com	UHP Wireless Networks is the WLAN division of Urban Harvest Partnership. The company is a resource for building wireless networks—from RF engineering and field implementation services to wireless construction, maintenance support and procurement. Its markets include business development for municipal and corporate organizations.
